

Gray Davis, Governor

STATE CLEARINGHOUSE

NEWSLETTER

April 16 through 30, 2003

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **April 16th through 30th, 2003.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Phillip Crimmins (for projects in Northern California)
Scott Morgan (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE 1999 through 2002

| | NOP | EIR | ND/MND | NOD | NOE | EA | EIS | OTHER | DOCUMENT TOTAL | Total Projects |

| EIS | Environmental Impact Statement (federal) |
| OTHER | Other types including Final EIRs, Early Consultation, etc. |

NOTES:

Percentages in parenthesis indicate the percentage of total documents for calendar year 2002.

There are more Total Documents than Total Projects because there are often multiple environmental documents filed for any individual project.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of April 16th-30th, 2003.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

CEQA Documents

Key for abbreviations of Document Type:

| | |
|---------|---|
| CON | Early Consultation Notice |
| EIR | Draft Environmental Impact Report |
| SIR | Supplemental EIR |
| SBE | Subsequent EIR |
| EIS | Draft Environmental Impact Statement |
| EA | Draft Environmental Assessment |
| JD | Joint Document (CEQA/NEPA) |
| FONSI | Finding of No Significant Impact |
| Neg Dec | Negative Declaration/Mitigated Negative Declaration |
| NOE | Notice of Exemption |
| NOD | Notice of Determination |
| NOP | Notice of Preparation (of an EIR) |

CEQA Actions

| SCH Number | Title / Lead Agency / City--County / Description | Document Type | Ending Date |
|---|--|------------------|----------------|
| <u>Documents Received on Wednesday, April 16, 2003</u> | | | |
| 2003032064 | Oroville Bangor Highway Improvement Project, Project Number 10661-00-1 Butte County Oroville--Butte The purpose of the project is to improve the roadway to meet current safety standards and will include the straightening of four curves within project boundaries. The proposed project includes: widening the shoulders along the highway; resurfacing the highway; replacing bridge rails at Rocky Honcut Creek Bridge; and completing horizontal realignments of sections of the highway. | FIN | |
| 2003042114 | State Route 219 Widening Project Caltrans #6 Modesto--Stanislaus The California Department of Transportation proposes to widen State Route 219 from a two-lane conventional highway to a four-lane conventional highway with improvements to intersections and the addition of a median and clear recovery zone. One alternative proposes accommodations for the future addition of two lanes as the ultimate concept of a six-lane expressway. | JD | 06/06/2003 |
| 2003042115 | Camp Richardson/Emerald Bay Road Decommissioning and Upgrade Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe South Lake Tahoe--El Dorado Decommission unneeded roads, replace culverts, convert road to non-motorized trail, and restore disturbed stream environment zones to improve water quality. | JD | 05/15/2003 |
| 2003041105 | City of Anaheim General Plan/Zoning Code Update Anaheim, City of Anaheim--Orange The General Plan Update includes revisions to the Land Use, Redevelopment, Circulation, Scenic Highways, Environmental Resource and Management, Growth Management, Parks, Recreation and Community Services, Noise, and Safety Elements. In addition, new goals, policies and programs are being developed. The Housing Element was previously updated and adopted by the Anaheim City Council on October 29, 2002. Title 18 of the Anaheim Municipal Code, will be amended to implement the updated General Plan. | NOP | 05/15/2003 |
| 2003042070 | Patterson Wastewater Master Plan and Diablo Grande Sewer Line Project Patterson, City of Patterson--Stanislaus Expansion of the City's wastewater facilities to serve approved and planned growth in the City and its sphere of influence. The project also includes accommodation of wastewater generated by Phase One of Diablo Grande, and construction of a sewer trunk line from Diablo Grande to the City (please see NOP for more details). | NOP | 05/15/2003 |
| 2003042110 | Humanities and Social Sciences Facility University of California, Santa Cruz Santa Cruz--Santa Cruz The proposed project is the construction of the Humanities and Social Sciences Facility on the UCSC campus. The proposed site is on Parking Lot #105, immediately northwest of Cowell College, on land designed "Colleges and Graduate Housing" in the campus Long Range Development Plan. The project will provide a total of approximately 84,500 outside gross square feet (ogsf), 51,550 assignable square feet (asf), of space to house faculty offices and | NOP | 05/15/2003 |

| | classrooms to serve the Division of Humanities and the Education Department of the Division of Social Sciences. | | |
| 2003042113 | Kettleman Lane/Lower Sacramento Road Commercial Center Lodi, City of Lodi--San Joaquin The proposed project involves the development of approximately 46 acres located at Kettleman Lane (SR 12) and Lower Sacramento Road in west Lodi. Of the total site acreage, approximately 35 acres will be devoted to retail shopping center, 6 acres will be occupied by a stormwater detention basin in the southwest corner of the site, and the remaining 5 acres will be dedicated for public street right-of-way. Since the project is consistent with the current General Plan and zoning designations for the site, the discretionary City actions requested for the project consist of conditional use permit and tentative map approval. | NOP | 05/15/2003 |
| 2003041104 | Beatriz Fosse, 1797 Hill Street Morro Bay, City of Morro Bay--San Luis Obispo Construction of a 1822 square foot single family dwelling and attached 822 square foot garage. | Neg | 05/15/2003 |
| 2003041106 | Conditional Use Permit 03-04 Adelanto, City of Adelanto--San Bernardino The proposed project consists of adoption of a negative declaration for and the development of a mini-warehouse facility on approximately 3.68 acres of Manufacturing Industrial (MI) zoned property. | Neg | 05/15/2003 |
| 2003041107 | El Cueno Norte Mitigation and Access Road San Diego, City of San Diego--San Diego Off-site wetland mitigation activities associated with construction of Phases 1 and 2 of State Route 56, Environmental Impact Report No. 95-0099. The project would implement wetland habitat restoration activities to result in the creation and enhancement of approximately 24.26 acres. A new 3,150 foot long, 10-foot wide unpaved park access road would be constructed in association with the project. The proposed project is located within the Mira Mesa Community Planning Area. | Neg | 05/15/2003 |
| 2003042105 | I-580/I-205 Truck Bypass, 4-ALA-580 KP L0.00/4.35 (PM L0.00/2.70) 4-ALA-205 KP L0.00/0.34 (PM L0.00/0.21) Caltrans #6 Tracy--San Joaquin Construct a new two-lane freeway-to-freeway connector at the I-580/I-205 Interchange. The new connector would connect to I-205 on the median side of the westbound lanes, and the existing westbound I-580/westbound I-205 connection would be used for truck traffic and include automobile traffic bound for Grant Line Road. Also included in the project is the extension of the outside freeway and (auxiliary lane) 1.4 kilometers (.9 miles) west of Grant Line Road. No new right-of-way would be required. | Neg | 05/15/2003 |
| 2003042106 | McGarvey Creek Watershed Restoration Project State Coastal Conservancy --Del Norte Erosion control and road decommissioning in the McGarvey Creek sub-watershed, tributary to the Klamath River, for the purpose of improving water quality and available spawning and rearing habitat for anadromous fish. | Neg | 05/15/2003 |

| 2003042107 | S03-03 and PD03-02/El Dorado Hills Fire Station No. 85 El Dorado County Folsom--El Dorado Special use permit and planned development for new fire station (25,000 square feet of the fire station and administrative offices). The project will result in the splitting of 2.9 acres from an existing 105.12-acre parent parcel. | Neg | 05/15/2003 |
| 2003042108 | Valhalla Renaissance Festival El Dorado County --El Dorado Special Use Permit to allow the Valhalla Renaissance Festival to take place at the Tahoe Pines Campground during three weekends in June. | Neg | 05/15/2003 |
| 2003042109 | Los Gatos High School Theater Improvement Project Los Gatos-Saratoga Joint Union High School District Los Gatos--Santa Clara The plans include a new 845 square foot entry addition, consisting of an interior lobby extending directly from the existing side entry and with two sets of entry doors, landings, and stairs at south and north sides of the addition. New access ramp also ascends to the north side entry landing and doors. The new side stage addition containing a shop, restroom, storage and dressing room is 1,000 square feet, and located 35 feet to the north of the entry addition. | Neg | 05/15/2003 |
| 2003042111 | Village at South Auburn Grass Valley, City of Grass Valley--Nevada Mixed Use 34 residential duplex units, 23 residential apartments, 15,323 square feet commercial, 9,543 square feet office, subdivision, PUD, and rezone. | Neg | 05/15/2003 |
| 2003042112 | Russell H. Green Jr. Mallard Slough Project Contra Costa Water District --Contra Costa The project proposes to drill and test a maximum of eight natural gas wells from an upland location adjacent to Mallard Slough. The wells will be directionally drilled into a target area located approximately 4,000 to 10,000 feet north of the project site under Honker Bay and the westerly portion of Chipps Island. | Neg | 05/15/2003 |
| 1998071089 | Groundwater Development and Public Works Facility Project Beverly Hills, City of Beverly Hills--Los Angeles Development and utilization of four water wells, reverse osmosis (RO) water treatment plant, and pipelines connecting the wells, plant, and municipal water system. | NOD | |
| 2000091062 | Arroyo Seco Design Guidelines and the Arroyo Seco Stream Restoration Project (Components of the Arroyo Seco Master Plan) Pasadena, City of Pasadena--Los Angeles The project area includes three sub-areas known as (1) Hahamongna Watershed Park (approximately 300 acres, part of the Upper Arroyo Seco), the Central Arroyo Seco (approximately 550 acres), and the Lower Arroyo Seco (approximately 150 acres). The project consists of five elements: (1) Hahamongna Watershed Park Master Plan (HWP), (2) Central Arroyo Seco Master Plan (CAMP), (3) Lower Arroyo Seco Master Plan (LAMP), (4) Rose Bowl Operations Company (RBOC) Use Plan, and (5) Design Guidelines. | NOD | |

| 2003021079 | BLM El Mirage Reservoir/Well and Power, Visitor Contact Center and Restroom Developments Parks and Recreation, Department of Adelanto--San Bernardino The proposed facilities under consideration consist of a new Visitor Contact Center and associated amenities including a water reservoir/well that would be located approximately 1.5 miles north of El Mirage Road on Mountain View Road at the eastern corner of Mountain View Road and Bella Vista Road on approximately 10 acres of public lands. The visitor center would occupy the southwestern portion of Section 8, Township 6 North, and Range 6 East. In addition, development would include removal of approximately 12 power poles from the lakebed for safety and visual concerns and replacing the existing power lines underground along Mountain View Road. | NOD | |
| 2003049056 | Crossroads Business Park Fish & Game Eastern Sierra-Inland Deserts Region Ontario--San Bernardino SAA # 6.2002-297 Grade and fill the existing streambed channel, resulting in the loss of 13.2 acres of jurisdictional waters. | NOD | |
| 2003048319 | Delta Smelt Research Culture Facility Water Resources, Department of Byron--Contra Costa Project consists of placing a display case at the historic entrance to Doheny State Beach. The project requires excavation for the posts and construction and placement of the panel, which will be approximately nine feet high and four feet wide. | NOE | |
| 2003048322 | Lake San Antonio Tributary Arizona-type Culvert Crossing Fish & Game #3 --San Luis Obispo The project is an Arizona-type culvert crossing on a tributary to Lake San Antonio at 4647 Interlake Road in the community of Bradley, 20 miles northwest of Paso Robles on Highway G-14, and 1.5 miles south of the Bee Rock Store. An eight-inch thick concrete travel surface, and rip-rap in concrete will be installed over two, 24-inch diameter, 20-foot long culverts. The travel surface will be approximately three feet above the channel. | NOE | |
| 2003048323 | Domestic Water Diversion-Grasshopper Creek Fish & Game #3 --Sonoma SAA 1600-2003-0064-3 The applicant proposes to use an existing pumping station at the above location for the purpose of diverting water for domestic use to five homes. The estimated daily volume will be 1750 gallons per day on a yearly basis. Pumping rates and times are outlined in the application as 116.9 gallons per minute for a maximum of 4.5 minutes each time, up to five times a day. | NOE | |
| 2003048324 | District Office Relocation to Office Trailer Parks and Recreation, Department of --San Diego Project consists of installing a modular office building in the southwest corner of the existing transit/visitor parking lot at Old Town San Diego State Historic Park. This includes the installation of utilities (water, electricity, and sewer), a 6 foot high chain link fence, two gates, and a flagpole. | NOE | |

| 2003021132 | <p>Redevelopment Project No. 4, Amendment No. 1 Fullerton Redevelopment Agency Fullerton--Orange</p> <p>The project involves the adoption and implementation of an amendment to the Redevelopment Plan for Project No. 4. This action will extend the Redevelopment Agency's authority to purchase real property in the Project Area using eminent domain for an additional 12-year term. The proposed action will not alter the boundaries of the Project Area. Although no development or construction is proposed at this time, the continued implementation of the Redevelopment Plan is expected to facilitate commercial, office, industrial/manufacturing and public development in the Project Area in conformance with the Fullerton General Plan and to mitigate various blighting conditions that have been found within the Project Area. The primary goal of the Redevelopment Plan will continue to be the elimination of physical and economic blighting conditions that hinder the full development of the Project Area.</p> | EIR | 06/02/2003 |
| 2001042058 | <p>The San Francisco Estuary Invasive Spartina Project State Coastal Conservancy --Alameda, Contra Costa, Santa Clara, San Mateo, ...</p> <p>The Spartina Control Program (SCP) proposes to implement a number of treatment techniques (tools) to eradicate the four invasive non-native cordgrass species. These include a range of manual, mechanical, and chemical techniques including hand digging, smothering, use of herbicides, dredging, mowing, maceration, burning, and flooding. The geographic focus of the nine Bay Area counties, including Alameda, Contra, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano, and Sonoma Counties. Currently, about 5,000 gross acres of marshland are infested with about 500 net acres of invasive cordgrasses.</p> | JD | 06/02/2003 |

| 2003041109 | McKenna Heights Tentative Map San Diego County --San Diego The project is an application for a residential subdivision that proposes to subdivide 15.79 gross acres into 7 residential parcels ranging in size from 2 to 3.06 net acres. Lot 6 contains an existing house and an existing open space easement on the northeastern corner. The lots will be served by the Valley Center Municipal Water District and will have on-site sewer systems. | Neg | 05/16/2003 |
| 2003041120 | Fallbrook Revitalization, R 02-004/POD 02-07/Log No. 00-02-039 San Diego County Department of Planning and Land Use Fallbrook--San Diego The project is a General Plan Amendment, Rezone, Zoning Ordinance Amendment and Noise Ordinance Amendment to implement a portion of the Fallbrook Economic Revitalization Plan. The Zoning Ordinance Amendment and Rezone will develop and apply five new "Village Zones" for a portion of the existing business district. The General Plan Amendment will revise the Regional Land Use Element to add a new Land Use Designation to accommodate the mixed uses proposed for the Village Zones and apply the new Land Use Designation to the entire project area. The amendment to the San Diego County Noise Ordinance will add the Village Zones to Section 36, 404, which establishes the sound level limits for specific zones. | Neg | 05/16/2003 |
| 2003041121 | The Chinese Park San Luis Obispo, City of San Luis Obispo--San Luis Obispo Construction of a park with walkways, a pavillion, manmade pond, public art, a creek overlook, and landscaping. | Neg | 05/16/2003 |
| 2003041122 | New Clay Construction Project Murrieta County Water District Murrieta--Riverside The proposed project consists of the drilling and equipping of one potable water production well. It is estimated that the well will be drilled to a depth of 500'-900' with an approximate production of 1,000 gpm of water. The well pumping unit will be a vertical turbine pump with an electric motor. The ground surface surrounding the well will be raised approximately 5' by placement and grading of imported fill in order to elevate the well foundation above the 100-year flood level, in accordance with California Department of Health Services requirements. The finished well site will be paved and surrounded on the perimeter by a 6' chain link fence with appropriate landscaping. The project includes approximately 200' of buried 8" pipeline to connect the well to the existing potable water system located within Ivy Street and New Clay Avenue. This pipeline will be placed within existing or proposed public right-of-way. The project will also include construction of approximately 200' of an 8" pump-to-waste pipeline. This pipeline will, on occasion, discharge into the adjacent drainage basin leading into the Murrieta Creek Basin. During construction, well development and testing water will be discharged via a temporary pipeline to Murrieta Creek in accordance with all applicable requirements of the California Regional Water Quality Control Board, San Diego Region. | Neg | 05/16/2003 |

| 2003042119 | Last Chance Creek Restoration-Charles Creek Plumas County Planning Department Quincy--Plumas Restoration of 1.3 miles of Last Chance Creek consisting of restoring water level elevation by obliterating gullies and directing flow into remnant channels. | Neg | 05/16/2003 |
| 1996042043 | Little Valley Specific Plant Alameda County The project is the widening of an existing gravel entrance road which will result in the fill of a 410-foot long, and one foot wide grass swale, which begins at the entrance of Little Valley Road. The swale parallels the existing gravel driveway for approximately 410-feet. The existing 12-foot wide gravel driveway will be widened to 24 feet and the gravel will be replaced with asphalt. The Operator will create a grassy swale, which will parallel the new entrance road. An existing culvert under the road will be removed and replaced with approximately 20 feet of culvert and rock rip-rap. A conservation easement will be recorded and held in perpetuity and will include the pond, the ephemeral drainage that drains into it, and a 100-foot buffer around these features. Native trees, shrubs and grasses will be planted around the creek and pond to enhance California red-legged frog and other native sensitive species habitat. | NOD | |
| 2000109033 | Moss Landing Power Plant Project Energy Commission --Monterey Modification of air quality conditions of certification to exclude shutdown periods of no more that two hours from mass emissions limitations and provide for new emissions limitations during the shutdown process. | NOD | |
| 2000129017 | Sunrise Power Project Energy Commission Bakersfield--Kern Modification of the air quality Conditions of Certification to clarify emission monitoring requirements, and to allow for a temporary increase in criteria air pollutants during commissioning activities. | NOD | |
| 2002102035 | Old Page Mill Trail Repair Project Midpeninsula Regional Open Space District --San Mateo The project consists of repairs to storm damaged portions of Old Page Mill Trail, an unpaved recreational trail located at Skyline Ridge Open Space Preserve. The project includes the replacement of an existing undersized culvert with a larger culvert, reconstruction of the two washouts, and debris slump clearing. | NOD | |
| 2003022050 | Mission Creek Restoration Project Alameda County Flood Control and Water Conservation District Fremont--Alameda Restoration of 3,100 linear feet of Mission Creek, located between Palm Avenue and Driscoll Road, Fremont, Alameda County. In this area, the following will occur: restoration of fluvial geomorphic balance, increase in flow capacity, arrest of vertical and lateral erosion, and re-establishment of a viable riparian corridor. Exotic species will be removed, stable bed and banks will be constructed, biotechnical stabilization methods will be used, meander will be restored, and native riparian vegetation will be planted. | NOD | |

| 2003032005 | K. Jeff Nelson Humboldt County Planning Department Fortuna--Humboldt A parcel map subdivision of Assessor Parcel number 202-231-18 into two 5.4 acre parcels. Both parcels are to be served by a private road, individual septic systems, and a shared well that served both proposed parcels. Currently, proposed Parcel 1 has a home and approved septic system. The applicant is also requesting an exception to the Class IV Humboldt County Road standard requirement to construct a Class III Road. The applicant has offered to convey secondary dwelling rights, for each parcel, to the County in order to achieve approval of the lower category road. | NOD | |
| 2003049051 | Gaviota Facility Excess Equipment Removal Project Fish & Game #5 --Santa Barbara Remove exposed sour gas lines in six creek crossings. | NOD | |
| 2003049052 | Palmdale Water Conservation Garden Park Initial Study/Mitigated Negative Declaration (IS/MND) Palmdale Water District Palmdale--Los Angeles The Palmdale Water District is proposing the development of the Water Conservation Garden Park to serve as an environmental education facility for the residents of the City of Palmdale and the surrounding communities in the Antelope Valley. The District would provide for approximately 5.65 acres of land for the project. The project site is proposed to include structures such as garden and exhibit spaces, buildings (bookstore with offices and gift shop, public restrooms, maintenance building), streetscaping, a small outdoor amphitheater (150-200 seats) for exhibits and education, and a children's garden. The garden would provide pathways for nature walks and a garden gazebo for weddings. | NOD | |

| 2002071077 | <p>Wildcat Canyon Road Enhancement Project (WA #UJ1693) San Diego County Department of Public Works --San Diego</p> <p>The proposed action consists of widening Wildcat Canyon Road beginning at 1,800 feet north of Muth Valley Road and end at a point 900 feet north of Blue Sky Ranch Road, an approximate distance of one mile, to accommodate two northbound travel lanes, creating a passing lane. At Blue Sky Ranch Road, Wildcat Canyon Road will be lowered in elevation in areas where the sight distance is less than standard. Additionally, the entrance to Oak Oasis Open Space Preserve will be reconfigured to line up with Blue Sky Ranch Road. Other project components include creation of a wildlife crossing/equestrian tunnel north of Blue Sky Ranch Road; Improvements to the existing recreational parking area east of Wildcat Canyon Road at Blue Sky Ranch Road; Installation of three roadway turnouts (two northbound and one southbound); Installation of a right-turn lane located on southbound Wildcat Canyon Road and a left-turn lane located on northbound Wildcat Canyon Road at the intersection of Muth Valley Road and Wildcat Canyon Road; and intersection improvements at the Wildcat Canyon Road, Willow Road, and Ashwood Street as well as realigning Wildcat Canyon Road north of the intersection to improve sight distance. Partial vacation of two existing open space easements will be required.</p> | EIR | 06/02/2003 |
| 2002101100 | <p>North Downtown Neighborhood Revitalization/Transit Village Plan Lancaster, City of Lancaster--Los Angeles</p> <p>The proposed project involves the development of an in-fill affordable housing, redevelopment of commercial retail and modifications to existing street patterns which includes construction of a new street and closure of certain streets. In addition entities are proposing development of a Christian school, construction of a children's counseling facility, expansion of a church/school and related ancillary facilities and construction of a mental health facility. A 10 to 12-acre park is proposed as the core focus of the plan.</p> | EIR | 06/02/2003 |
| 1998064001 | <p>State Route 22 West Orange County Connection Project Caltrans</p> <p>Los Alamitos, Seal Beach, Garden Grove, Westminster, ...--Orange</p> <p>Widen and construct a high occupancy vehicle (HOV) lane in each direction on State Route-22 from the Interstate-405/605 interchange to State Route 55, including direct HOV connectors to I-405/605 and SR-22/I-405. Work also includes auxiliary lanes, design features to improve interchange spacing and shoulder and median widths, implementing Transportation System Management improvements and expanded bus services, and providing a collector/distributor road along the eastbound SR-22 at the SR-22/I-5/SR-57 confluence.</p> | FIN | |

| 2003041127 | U.S. Borax, Owens Lake Expansion Project/Conditional Use Permit #02-13/Reclamation Plan #02-1 Inyo County Planning Department --Inyo U.S. Borax, which currently mines trona ore from the dry bed of Owens Lake in Inyo County, proposes the installation of trona ore processing facilities at the lake. The facility, consisting of a portable, mobile washing equipment located on the lakebed and a calcining and drying unit on the western shore, would enable U.S. Borax's Boron, California, Operations to meet its product (soda ash) requirements without purchasing processed trona ore from the market. Washing the ore would significantly reduce the impurities in the ore. Owens Lake has been mined selectively thus far to minimize these impurities in the ore; in the future, however, the Boron Operations would receive ore of higher impurity. | NOP | 05/19/2003 |
| 2003042121 | Upland Highlands Residential Project (Z-02-03/TPM-02-02) Siskiyou County --Siskiyou The proposed project includes the construction of two on-site storm water detention basins. Individual on-site septic tank and leachfield systems would provide for sewage disposal and individual on-site wells would provide potable water. A property owner's association would be established to maintain the detention basins and fire suppression system. The Mt. Shasta Fire Protection District and California Department of Forestry and Fire Protection (CDF) would provide fire suppression services. Electrical service would be provided by Pacific Power. SBC would provide telephone service. Northland Cable service may be able to provide television cable service or individual property owners can subscribe to satellite systems. Solid waste would be taken to the Black Butte Transfer Station and eventually be transferred to the sanitary landfill southeast of the City of Yreka. | NOP | 05/19/2003 |
| 2003042126 | Hay Road Landfill Use Permit Revision #3 Solano County Vacaville--Solano The proposed Hay Road Landfill (HRLF) Use Permit Revision #3 project would include: 1) the relocation of a landfill support facility from off-site within Vacaville to HRLF; 2) composting operation modification consists of : (a) an increase in the permitted average daily throughput of compost feedstock from 300 tons per day (TPD) to 600 TPD, with a peak of 750 TPD, (b) the addition of 6.8 acres to the permitted composting area footprint, (c) the addition of windrow composting as an on-site composting method, and (d) increasing the composting operation hours to 24 hours per day; 3) addition of a recyclables loading area to reduce freeway miles traveled by collection vehicles utilizing the existing infrastructure of HRLF; and 4) revision of the landfill final cover design in response to Central Valley Regional Water Quality Control Board concerns about the currently permitted final cover design/closure plan. | NOP | 05/19/2003 |

| 2003042127 | Downtown Strategy EIR San Jose, City of San Jose--Santa Clara The San Jose Greater Downtown Strategy Environmental Impact Report will evaluate the impacts of development envisioned by the previously prepared Strategy Plan 2000. The proposed project may include up to 8 to 10 million square feet of office space, 8-10,000 residential dwelling units, 900,000 to 1.2 million square feet of retail space, and 2,000-2,500 guest rooms of hotel space. | NOP | 05/19/2003 |
| 2003042128 | Emergency Response Center Project University of California, Santa Cruz Santa Cruz--Santa Cruz The proposed project is the construction of the Emergency Response Center (ERC) and ERC Equipment Storage Building on the UCSC campus. The proposed ERC site is located in the corporation yard in the southern portion of the campus, on land designated "Campus and Community Support" in the campus Long Range Development Plan. The proposed ERC Equipment Storage Building site is located south of the Arboretum in the southern portion of the campus, on land designated "Site-Specific Research" in the campus Long Range Development Plan. The project will provide a total of approximately 17,250 outside gross square feet (ogsf), 11,200 assignable square feet (asf), of space to house the Emergency Operations Center, the Dispatch Center, the Police Department, and emergency equipment storage. | NOP | 05/19/2003 |
| 2003041126 | Conditional Use Permit No. 02-335 Lodi Unified School District --Los Angeles A Conditional Use Permit application to erect three 50-meter tubular towers with attached meteorological devices, supported by guy wires with screw-in anchors. No grading, paving, or concrete work will be involved with installation of these towers. These towers will remain in place for approximately six months to two years. Construction of the towers is anticipated to require minimal site disturbance with no concrete foundation and existing on-site roads will be used. The site is currently used to raise horses and for agriculture practices. | Neg | 05/19/2003 |

| 2003041131 | CUP/OT 02-214 2270 Lake Avenue, Altadena, CA 91001 Los Angeles County Department of Regional Planning --Los Angeles The proposed project is a request for a Conditional Use Permit to allow the sale of alcoholic beverages for off-site consumption associated with the construction and operation of a 52,317 square foot commercial grocery store and 219-space parking lot. Two existing buildings on the subject property will be demolished before and during new construction (29,720 sq. ft. market and a 28,452 sq.ft. bank/office/church building). An Oak Tree Permit is also requested to allow for encroachment on the canopy of three existing holly oak trees located in the public-right-of-way adjacent to the south property line on Calaveras Street. Primary vehicle access will be provided on Lake Avenue, Mendocino and Calaveras Streets. Hours of operation will be 24-hours a day 7-days a week. There will be typically 6 sifts in a 24-hour period, with between 8-15 employees working per shift. | Neg | 05/19/2003 |
| 2003041132 | Hu Residence San Diego, City of --San Diego Site Development Permit to demolish a single-family 2,450 square-foot residence and build a replacement 4,593-square foot single-family residence on a 2.42-acre site. | Neg | 05/19/2003 |
| 2003041133 | La Mesa Hilltop La Mesa, City of La Mesa--San Diego A request by Intracorp for a Site Development Plan, Design Review, Tentative Tract Map, Rezone and Special Permit to subdivide a 8.30-acre site into 36 single family residential lots and one open space lot, between Massachusetts and Orien Avenues, in the R1 (Urban Residential) and R1S (Suburban Residential) zones. The applicant proposes a Planned Residential Development to include 34 single-family lots and one open space lot. A zone reclassification is proposed to adjust the R1 and R1S zone boundary to align with lot lines on the portion of the property fronting on Massachusetts Avenue. A Special Permit is requested to permit fill within setbacks and walls in excess of height limitations. The site is designated for Residential use in the La Mesa General Plan, and is within a designated "Visually Sensitive Area." This proposal requires approval by the City of La Mesa Development Advisory board, Design Review Board, Planning Commission and City Council. City of La Mesa File Number DAB/DRB 03-04, TTM 03-01, Z-01-03 and SP-03-05. | Neg | 05/19/2003 |

| | existing Tower Tech cooling towers, located at the 2.5 acre Davis Medical Center Central Plant with more efficient and greater capacity cooling towers. The existing cooling towers are located immediately west of the Central Plant and currently consist of 12 units, each with a capacity of 2000 gallons per minute (gpm)/unit. These existing units are 12 feet in height and each have a footprint of 12 feet by 24 feet. At Central Plant buildout (2030), as analyzed in the 1994 EIR, the cooling towers were anticipated to consist of 10 units, with a total capacity of 47,250 gpm. The new cooling towers are proposed to be located just west of the existing towers, and will consist of a total of four units, each with a capacity of 9,500 gpm/unit (total capacity of 38,000 gpm) and have a counterflow design. These new cooling towers will be 50 feet in height and will each have a footprint of 36 feet by 36 feet. Installation of the new cooling towers will require excavation to a depth of five feet under the 5,184 square foot footprint of the proposed cooling towers. No other ground disturbance will take place during construction of the Proposed Project. | | |
| 2003042124 | Rancho Del Sol-Tentative Map Project Stockton, City of Stockton--San Joaquin A Tentative Map to subdivide a 52-acre site into 247 lots for the residential development for property located on the east side of Airport Way and approximately 190 feet south of Twelfth Street. | Neg | 05/19/2003 |

| <u>Documents Received on Friday, April 18, 2003</u> | | | |
| 2002121040 | Granada Park Gymnasium Renovation Alhambra, City of Alhambra--Los Angeles Renovation of existing building which contains restrooms, showers, office space, activity room, kitchen facility and gymnasium, which renovation shall include but not be limited to replacing old flooring materials in activity room and kitchen, carpeting and interior painting in all rooms, exterior painting and landscaping, ADA upgrades to bathrooms, replacing exterior concrete walkways for improved ADA accessibility to the facility. | NOD | |
| 2002122051 | Molecular Foundry University of California, Regents of the Oakland--Alameda The project will construct and operate a six-story, approximately 86,500 gsf, Nanoscale Research Facility (Molecular Foundry building); and an adjacent 8,000 gsf, partly below-grade Central Utility Plant building. The buildings would be located on an approximately 2 1/2-acre site in the southeastern portion of the LBNL facility in the Oakland-Berkeley hills. The Molecular Foundry building would include laboratories, offices, and conference and seminar rooms; the Central Utility Plant would also serve as the foundation for 16 surface parking spaces. A new plaza and pedestrian bridges would connect or provide ready access between the proposed Molecular Foundry building and adjacent scientific buildings. The Proposed Action would extend Lee Road approximately 350 feet, and widen a portion of the road to accommodate two-way traffic. The Molecular Foundry would be staffed and/or used by an estimated 137 persons, of whom an estimated 59 would be staff persons, 36 would be students, and 42 would be visitors (i.e., visiting scientists) to the Center. It is anticipated that construction would take place between approximately January 2004 and February 2006. | NOD | |
| 2003021068 | North Green Valley Interceptor Sewer Upgrade Project Leucadia County Water District Carlsbad--San Diego North Green Valley Interceptor consists of two parallel pipelines located in or adjacent to El Camino Real. The first pipeline was built in 1966 and the second was constructed in the early 1980s. In order to address issues elated to deficient capacity in the older pipeline, LCWD is proposing to divert some of the flows in the existing pipeline into a newer pipeline which can accommodate these flows. A total of 300 feet of new pipeline and one new manhole would be constructed to connect the two pipelines. In addition, LCWD proposes to repair 2,150 feet of pipeline that has been damaged or cracked as a result of tree root and groundwater infiltration, conduct point repairs at five locations, and rehabilitate 23 manholes. | NOD | |
| 2003021097 | Computer Science Unit 3 University of California, Irvine Irvine--Orange The project will construct a total of 146,180 gross square feet, in two buildings; a six-story research and office building and a two-story lecture hall building. The facility will accomodate instruction and research space for the School of Information and Computer Sciences, and general assignment classroom space. | NOD | |

| | accessible site, including new tables, stoves, pads/pathways, trash receptacles, and curbs. Modify existing drinking fountain to meet ADA standards. | | |
| 2003048350 | Issuance of Streambed Alteration Agreement #03-0107 Fish & Game #1 --Lassen The project proposes to stabilize approximately 322 feet of Baxter Creek to reduce down-cutting and stabilize the banks. There will be no removal of healthy, mature, scenic trees. | NOE | |
| 2003048351 | Spring Valley Dam, No 1-73 Water Resources, Department of, Division of Dams --Plumas Spillway will be notched to remove dam from State jurisdiction. | NOE | |
| 2003048352 | Real Time Ratings for Sacramento Area Energy Commission --Sacramento, San Francisco The purpose of this contract is to demonstrate the feasibility of implementing real-time transmission line ratings for a large multi-utility area under normal system conditions, by linking the benefits from real time thermal ratings with simultaneous mitigation of voltage constraints and by developing ratings forecasting methods. This meets the PIER goal of Improving the Energy Cost/Value of California's Electricity by improved economic dispatch. This project also meets the secondary goal of Improving the Reliability/Quality of California's Electricity by mitigating the voltage constraints in the Sacramento area. | NOE | |
| 2003048353 | Demonstration of a New, High-Efficiency Air-Conditioning System Energy Commission Thousand Oaks--Ventura The purpose of this contract is to demonstrate a new, energy-efficient air-conditioning system in a commercial retail store. The target efficiency improvement is 30 to 60%. The demonstration should also show if the system satisfies comfort and operating requirements for the building and identify remaining design issues for future work. This meets the PIER goal of improving the energy cost/value of California's electricity by demonstrating a new, energy-efficient air-conditioning system that is suitable for use in commercial buildings. | NOE | |
| 2003048354 | Decreasing Electric Demand in California Oilfield Operations by Reducing Excess Water Production Energy Commission Bakersfield--Kern The purpose of this contract is to analyze well geology and demonstrate suitable technological solutions that can reduce electric power consumption in California oilfields by reducing the excess water production. This meets the PIER goal of improving energy cost/value and strengthening the California economy. | NOE | |

| | able to utilize the club facilities during school hours for academic purposes within the planned technology center, music and dance room, and multipurpose room. The project consists of an approximately 10,100 square foot building proposed for development on the Los Cerritos Middle School Campus along Avenida de las Flores. The proposed location is immediately west of the existing gymnasium and would have a parking lot with driveways providing access to and from Avenida de las Flores. | | |
| 2003041137 | EA RP01-02 Kern County Planning Department --Kern A conditional use permit to allow the expansion of a surface mining operation and development of a reclamation plan. | Neg | 05/20/2003 |
| 2003041139 | Cuyama Pavement Rehabilitation Caltrans #5 --Santa Barbara, San Luis Obispo Caltrans proposes to rehabilitate route 166 in Santa Barbara and San Luis Obispo Counties from kilo post 88.5 to 113.6 (post mile 55.1 to 70.6). The project would include overlaying the existing pavement, widening the existing lanes to 3.6 meters (12 feet), widening the shoulders to 2.3 meters (4 feet), installing a 2-way turn lane in the town of New Cuyama, installing 2 new left turn lanes, one at each school, widening the Branch Canyon and Salisbury Canyon Bridges, and associated drainage work. | Neg | 06/11/2003 |
| 2003041140 | Stonecreek Retail/Commercial Plaza Los Banos, City of Los Banos--Merced The proposed project is a multi-phased commercial project on 40.83 acres of a 42.37 acre site including sixteen commercial/retail buildings ranging in size from 3,500 to 115,000 square feet. At built out, the proposed project would consist of approximately 352,640 square feet of commercial, retail, and restaurant space. Approximately 21.5 percent of the project site would be devoted to landscaping. An eight-foot sound/screening wall is proposed in the southern portion of the project site between the recently approved residential project to the south, "The Villages at Stonecreek", and the proposed commercial uses. The proposed project includes a number of transportation, circulation improvements on roadways within the project vicinity. Improvements include right-turn lanes at the project driveways on Highway 152 and a right turn lane on Highway 152 at the approach to Ortigalita Road. Badger Flat Road would be modified to allow for a new intersection at the entrance to the proposed project. This intersection would line up directly opposite the driveway, there will be a stop sign on the side-street approach. A new street would also be constructed along the southern boundary of the project site from Ortigalita Road to Badger Flat Road. | Neg | 05/20/2003 |
| 2003041143 | Phelan Community Park San Bernardino County --San Bernardino The proposed project is the development of approximately 2.1 acres of parcel into a Community Park. | Neg | 05/20/2003 |

| 2003042131 | Canyon Rim Estates Auburn, City of Auburn--Placer Tentative Subdivision Map for 23 S.F.R lots and 96 acres of open space; rezone from AR-36 to AR-50; use permit for planned development standards; and tree permit for the removal of 241 native trees. | Neg | 05/20/2003 |
| 2003042132 | Sediment Removal, Highway 1, PM 23.5 Caltrans #5 Santa Cruz--Santa Cruz The proposed project will remove accumulated sediment from the culvert outlet and drainage channel of a drainage, sometimes referred to as Little Baldwin Creek. The minimum amount of sediment necessary to clear the headwall and culvert and reestablish flow, will be removed. The proposed project is needed to restore unimpeded flow through the existing culvert and drainage in order to prevent damage to the highway facility. | Neg | 05/20/2003 |
| 2003042134 | Marin Montessori Improvement Project Corte Madera, City of Corte Madera--Marin Demolish several existing structures and construct two new buildings to be used for education-related purposes. | Neg | 05/20/2003 |
| 2003042135 | Grading Permit G2002-22 Tuolumne County Community Development Dept. --Tuolumne The purpose of the grading is to construct a building pad for a single-family residence that will be accessed by a 1200 foot long driveway off of Jamestown Road. Two building pads have been excavated on the hillside. The owners plan to use the larger pad that is higher up on the hill for the residence. The lower pad was excavated mistakenly and will be used for a garden. Both pads were excavated by using dynamite to blast bedrock. This excavation was completed without a Grading Permit from Tuolumne County. The applicant has since submitted a Grading Plan to the Engineering Development Division of the Public Works Department to correct this situation. Erosion control measures that have been implemented include seeding of the disturbed areas on the slope with a fast growing rye grass, and the application of crushed aggregate rock on the driveway. Hay bales have been distributed to further mitigate any potential erosion of water quality issues. | Neg | 05/20/2003 |
| 2003042136 | 1200 El Camino Real-Service Stations Menlo Park, City of Menlo Park--San Mateo The applicant has submitted a proposal to redevelop the existing Chevron Service Station at 1200 El Camino Real. The proposal would include the demolition of all aboveground structures on the site, the retention of the existing underground fuel storage tanks, the reconstruction and expansion of the canopy and pump islands, and the reconstruction and expansion of the existing snack shop and auto service bays. The pump island canopy would expand from 1,164 square feet to 1,595 square feet, and the service station building would expand from 1,111 square feet to 2,194 square feet. Within the service station building, the snack shop would be expanded from 145 square feet to 418 square feet, and the auto service bays would be increased from 754 square feet to 1,296 square feet in order to expand the number of auto bays from two to three. | Neg | 05/20/2003 |

| 2003042137 | <p>Allan Beer/PM502-11 Humboldt County Planning Department --Humboldt</p> <p>The applicant proposes a minor subdivision of a 4.9+/- acre parcel into three parcels ranging from approximately 43,574 sq ft to 114,030 sq ft. The original parcel was created as Parcel 3, as shown on Parcel Map No. 628 on file in the Office of the Humboldt County Recorder, in Book 5 of Parcel Maps, page 110. The subdivision will site the existing single family residence and garage onto proposed Parcel 2. Proposed Parcel 1 is developed with an existing shed, which will be removed as a condition of approval. Proposed Parcel 3 is vacant. No new development is proposed at this time. Proposed Parcel 2 is currently served by commercial community water, provided by the McKinleyville Community Services District and an on-site sewage disposal system. The other two parcels will also be served by community water and on-site sewage disposal system. The other two parcels will also be served by community water and an on-site sewage disposal system. The other two parcels will also be served by community water and on-site sewage disposal. The parcels are accessed via Chaffin Road (aka Lane), an existing private road with a 20 foot right of way, which accesses onto Chaffin Road, an existing private road with a 45 foot wide right of way. Chaffin Road will be expanded to a 40 foot right of way and will be improved to a County Road Category 3 standard prior to parcel map recordation. Appropriate easements will be reserved for the benefit of the affected parcels. The road development will require an encroachment permit from the Land Use Division of the Public Works Department for access onto Dows Prairie Road.</p> | Neg | 05/20/2003 |

| 2002112030 | Culvert Replacement Caltrans #3 Auburn, Woodland, Willows--El Dorado, Placer, Sierra, Yolo, Glenn Rehabilitate/ replace two culverts under SR49 in two unnamed drainages at Placer County milepost .45 and 1.18. The lead agency prepared a negative declaration for a broader culvert replacement project. | NOD | |
| 2003011153 | Perris Valley Regional Water Reclamation Facility (PVRWRF) Secondary Clarifier No. 3 Eastern Municipal Water District Perris--Riverside The Eastern Municipal Water District Perris Valley Regional Water Reclamation Facility collects and treats municipal sewage and produces recycled water for reuse. The PVRWRF produces two levels of treated wastewater (also referred to as "effluent"), one of which is secondary treatment. | NOD | |
| 2003021025 | Proposal for Right of Way Acquisition To Preserve Corridor For Anticipated Future Proposal For Construction of a State Highway From... Caltrans Palmdale--Los Angeles The project is a proposal to acquire right-of-way between State Route 14 (SR-14) and the Avenue P-8 (Structure No. 53-2178), extending eastward along the Avenue P-3 and 15th Street East. Additionally, right-of-way would be acquired along Sierra Highway and 8th Street East in conjunction with the anticipated interchange between the future state highway and the nearby new on-ramp. | NOD | |
| 2003021054 | Chapman Heights Road Extension Yucaipa, City of Yucaipa--San Bernardino Westerly extension of Chapman Heights Road for 4,100 feet to San Canyon Road, including the northerly extension of 13th Street to connect with Chapman Heights Road. | NOD | |
| 2003021056 | Tentative Tract 29448 Water Line Eastern Municipal Water District Murrieta--Riverside Eastern Municipal Water District proposes to install a portion of waterline to provide potable water to Tentative Tract 29448 (the Murrieta Oaks Project). | NOD | |
| 2003021078 | Field Demonstration and Validation of a New Device for Measuring Groundwater and Solute Fluxes, Naval Base Ventura County, Port Hueneme Facility, Port Hueneme.. Regional Water Quality Control Board, Region 4 (Los Angeles), Monterey Park Port Hueneme--Ventura With Regional Board oversight, the U.S. Navy (Navy) and the University of Florida plan to conduct an 18-month field demonstration and validation of a new in-well device to measure groundwater and solute fluxes. During the evaluation process, the in-well device will release a number of alcohol tracers, with a maximum mass of 618 grams. The alcohols are expected to be transformed to harmless compounds by biological process. Groundwater sampling will ensure that no adversely impacted groundwater migrates down gradient. If adversely impacted groundwater were to migrate down gradient, it would be removed by a system of extraction wells installed by the Navy to contain and control the MTBE plume. The test will take place in the sandy perched aquifer, between approximately 7 and 22 feet below grade. A clay-rich aquitard zone occurs at approximately 22 feet below | NOD | |

| | grade, immediately below the sand. Groundwater flows to the southwest at velocities between 0.77 and 1.5 feet/day. | | |
| 2003021115 | <p>Acquisition of an Easement for Existing Purposes on Existing Leased Property of the San Luis Obispo County Oceano Airport South San Luis Obispo County Sanitation District --San Luis Obispo</p> <p>The South San Luis Obispo Sanitation District ("the District") is proposing to acquire an easement by Eminent Domain upon property currently under lease from the San Luis Obispo County Oceano Airport. The project property has been under lease for approximately 22 years. The project property has historically been and is currently being used for access to the wastewater treatment plant and a biosolids drying pond. During the time of the lease, the property has been consistently used for these purposes. The property would be acquired to ensure the ability of the South San Luis Obispo County Sanitation District to continue using the property for the purpose of access and for the biosolids drying pond in perpetuity. The District is not proposing any additional site disturbance or developments of the project property, and no site disturbance or development would occur on the project property in the reasonably foreseeable future.</p> | NOD | |
| 2003022016 | <p>IM Construction Office (EIAQ-3714/MUP-2893) Placer County Planning Department Rocklin--Placer</p> <p>Project consists of a 20,000 sq. ft. building, 16,000 sq. ft. for use as a warehouse / shop, 4,000 sq. ft. for office space. The southern one-third of the property will be paved and used for outdoor storage of materials and equipment associated with the operation. The operation itself consists of the prefabrication of interior and exterior wood decorative items for residential homes.</p> | NOD | |
| 2003022065 | <p>Hidden Valley Lake CSD Water System Improvements Hidden Valley Lake Community Services District --Lake</p> <p>The project includes eight pressure release valves and associated pipelines to be constructed within the above-listed roadway rights-of-way. Two booster pump stations and associated pipelines will be installed (a third housed in an existing structure will be replaced); one at the CSD corporate yard on Hartman Road, and a second adjacent to an existing pump station on Greenridge Road. Two 500,000-gallon water storage tanks (approximately 62 feet diameter by 24 feet in height) will be constructed at a site located above Meadow View Drive (Tank 1C) and a site located above Park Ridge Drive (Tank 4A). Both sites are currently improved with water storage tanks.</p> | NOD | |
| 2003022103 | <p>Speedway Avenue Extension Project Butte County Chico--Butte</p> <p>Butte County Department of Public Works proposes to extend the existing Speedway Avenue to connect with Entler Avenue. The proposed extension would be approximately 2,000 feet along new right-of-way to be acquired. The existing Speedway Avenue and proposed extension would be improved to one 12-foot lane and 4-foot paved shoulders on each direction with roadside drainage to ditches and leach lines located within the right-of-way. The project includes extension of the frontage road along State Route 99 north of Entler Avenue to an intersection with Speedway Avenue and elimination of the existing curve on Entler Avenue.</p> | NOD | |

| 2003032031 | Entrance Station Parks and Recreation, Department of --Sacramento This project will provide for a safe and functional entrance station at Prairie City SVRA. The entrance station will be relocated with enough site distance for visitors to be aware of the road conditions while entering or leaving the park. There will be a paved parking lot for visitors and for ranger staff. The total area of the new pavement, including parking and new roads is approximately 38,000 sq. ft. The entrance station is about 1,500 sq. ft. and will include landscaping with shade trees, automatic irrigation systems and a flagpole. The structure will include a restroom for staff and a restroom for visitors. The restrooms will have flush toilets with a septic system. The interior of the station will have an office, storage room, and dressing room with a shower. Space will be provided for four workstations and an area for receiving visitors. The structure will have a drop safe installed in the floor, telephones, radio communications systems, heating, and air conditioning. | NOD | |
| 2003048361 | Campus Electrical Infastructure Renewal Project University of California, Santa Barbara Santa Barbara--Santa Barbara Install a new 66/12.47kV substation transformer in the existing substation enclosure, adjacent to a Southern California Edison substation transformer, construct a new distribution switchgear house (approximately 50 feet long by 30 feet wide by 12 feet tall), immediately adjacent to the southeast corner of the 66kV substation and install two new distribution circuits. | NOD | |

| | structure. There will be no significant impact. | | |
| 2003049063 | Watercourse Crossings and Waterholes for Timber Harvest Fish & Game #2 --Calaveras Install four culverted watercourse crossings and two waterholes. | NOD | |
| 2003049064 | Salinas River Tributary On-stream Pond Sediment Removal Paso Robles, City of Paso Robles--San Luis Obispo The proposed project consists of maintaining and improving two ponds near Paso Robles. Both ponds are located in an unnamed drainage which flows into the Salinas River, which will be part of a 10-acre open space easement. Specific plans are to remove approximately 500 cubic yards of accumulated sediment from the easternmost pond (Pond 1). The sediment will be removed by heavy equipment and transported to an upland site, approximately 100 feet from Pond 1. Sediment fences will be installed below the foot of the receiver site and the entire fill area will be hydroseeded. Dewatering of this pond may be necessary in order to remove this sediment. If dewatering is necessary, the water from the pond will be pumped into the drainage downstream, which eventually flows into westernmost pond (Pond 2). Any water entering Pond 1 from upstream flow will be captured by a diversion structure and pumped around the worksite into the aforementioned drainage. The existing spillway of Pond 1 will also be repaired to reduce erosion in the area. The spillway will be approximately 200 feet long. The lower half of the spillway will be repaired to reduce erosion in the area. The spillway will be approximately 200 feet long. The lower half of the spillway will be repaired with 12-inch thick grouted riprap. The grouted area will be no greater than 15 feet in width. The upper half of the existing spillway will be lined with an erosion control blanket and hydroseeded. Less than 200 cubic yards of rock will be placed at the outfall of the spillway to dissipate flow and minimize erosion. Access to Pond 1 will be from a temporary construction road, which will be reseeded after project completion. The beginning of the spillway of Pond 2 will be modified to direct water into the spillway and not along the edges. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2002-1002 pursuant to Section 1603 of the Fish and Game Code to the project operator, Mr. Frank Arciero, Falling Star Homes. | NOD | |

| | these areas and commute regularly to campus. Providing the extra bus route would reduce the amount of student and staff vehicle traffic and parking on campus and in Isla Vista. Currently only one Santa Barbara County road connects Isla Vista and the UCSB campus. Bus service from the aforementioned areas and UCSB is deficient and in need of improvement. | | |
| 2003048356 | Mountain View Well Site No. 5 Health Services, Department of Loma Linda--San Bernardino The Mountain View Well Site No. 5 is intended to replace Mountain View Well No. 2, which was destroyed due to contaminants. Mountain View Well Site No. 5 was drilled (just 20 feet away from Mountain View Well Site No. 2 and on the same parcel of land) to a deeper depth in the aquifer to avoid the contaminants found in the upper water producing zones. Mountain View Well Site No. 5 is a domestic drinking water well. | NOE | |
| 2003048357 | Plant 39 Fluoride Blending Facilities Health Services, Department of Highland--San Bernardino EVWD constructed a 250,000-gallon water reservoir to blend water containing high concentrations of fluoride with water having lower concentrations to generate water that meets the MCL requirements. Historically, water from Well 39 has concentrations of fluoride that exceed the State MCL levels. This water has been blended with water containing lower fluoride concentrations from the Intermediate Zone at the two existing reservoirs located at Plant 39. This is not reliable and EVWD constructed the reservoir with a static mixer to blend water from the well with water from the existing reservoirs. This is accomplished by pump stations installed to boost water from the existing reservoirs to the blending reservoir. Water from Well 39 is pumped directly to the new reservoir. The blending reservoir provides a more reliable and efficient method of blending water for use in the EVWD system. | NOE | |
| 2003048358 | Sierra Linda Mutual Water Co. Well Madera County --Madera Drill a well to replace an existing well that exceeds public drinking water standards for Uranium and Iron. | NOE | |
| 2003048359 | Junipero Serra/Mission Gorge Sewer Side-Mains Emergency Cleaning San Diego, City of San Diego--San Diego Emergency cleaning of 10,107 feet of 8 to 12-inch-diameter sewer side mains. | NOE | |
| 2003048360 | Asphalt Maintenance Project at Various Parks Within Missions Oaks Recreation and Park District Mission Oaks Parks and Recreation District --Sacramento The project proposes to repair existing paved areas, used for parking and recreation activities in the Mission Oaks Recreation and Park District. The repairs consist of petromat 2" overlay and sealant coating and striping, where necessary. | NOE | |

| 2003048362 | Prestige Lincoln Mercury, Enhanced In Situ Bioremediation of Contaminated Soil and Groundwater Regional Water Quality Control Board, Region 1 (North Coast), Santa Rosa Santa Rosa--Sonoma The proposed project involves the remediation of soil and groundwater contaminated with petroleum hydrocarbons that underlies a paved parking area. The remediation would be affected by the injection of treated groundwater with added nutrients. The nutrient compounds ammonium nitrate and trisodium phosphate will be added to treated groundwater to enhance the degradation of petroleum hydrocarbon contamination in subsurface saturated soil and groundwater. | NOE | |
| 2003048363 | Drainage Maintenance for Residence Access through Big Sur Overflow Channel Fish & Game #3 --Monterey The project site is a roadbed crossing a seasonal flood channel of the Big Sur River. A portion of the access road was washed out during high flows in recent years. A Streambed Alteration Agreement (R3-2000-1311) was obtained to repair the roadbed but was not completed due to lack of funds. The proposed project would remove existing material from the damaged roadbed and replace it with clean washed quarry rock ranging from approximately 0.75 inches to 1.5 inches in diameter. Approximately 37 cubic yards of material would be placed in an area approximately 85 feet long, 12 feet wide, and 1 foot deep. The project is necessary to allow vehicular access to a cabin for purposes such as refilling an onsite propane tank or servicing the septic system. Issuance of a Streambed Alteration Agreement Number 1600-2003-0121-3 pursuant to Fish and Game Code Section 1601. | NOE | |

| 2003041148 | Huntington Harbour Bay Club Specific Plan Amendment Huntington Beach, City of Huntington Beach--Orange The Huntington Harbour Bay Club Specific Plan (HHBCSP) was adopted February 1983 and revised in July 1984. The Specific Plan area is a 10.6 acre site consisting of four areas. Area A is +/- 1.5 acres and currently developed with two tennis courts, changing rooms, a 750 square foot vacant accessory building previously known as the "Barefoot Bar," beach area, and a portion of the existing parking lot. Area B is +/- 1.3 acres and currently developed with a banquet facility and parking lot. Area C is +/- 5.9 acres and includes a public marina and parking lot. Area D is +/- 1.9 acres and currently developed with 36 residential condominium units. It also includes a small marina office, public restrooms, and parking area. The request is a Local Coastal Program Amendment (LCPA) and Zoning Text Amendment (ZTA) to amend the Huntington Harbour Bay Club Specific Plan. | Neg | 05/21/2003 |
| 2003041149 | Cabrillo Marine Aquarium Master Plan Improvements Los Angeles City Department of Recreation and Parks --Los Angeles The Department of Recreation and Parks is proposing to implement the Cabrillo Marine Aquarium Master Plan that identifies a variety of facility infrastructure and expansion improvements aimed at increasing the Aquarium's available building space and bolstering its marine education, research, and public outreach programs. The local point of the project includes the construction of three new buildings totaling approximately 20,000 square feet of gross floor space. These buildings include an Aquaculture/Discovery Laboratory, a Washroom Building, a Gift Shop/Project Laboratory, and a garage to house the Outreach Program vans. DRP will require a modification to its lease with the Los Angeles Harbor Department to accommodate the siting of the Aquaculture/Discovery Laboratory in the southern portion of the facility. | Neg | 05/21/2003 |
| 2003041150 | City-owned Park & Ride Lot and Park La Canada Flintridge, City of La Canada-Flintridge--Los Angeles Develop a passive park on the southern half of the city's Park & Ride lot. The park would be composed of open lawn area, a sand play area, a water feature play area, picnic tables, a snack bar/restroom structure (660 sf), and an eight to ten foot tall sound wall/safety barrier with shade structure. At least thirty parking spaces would be retained for all uses. | Neg | 05/21/2003 |
| 2003042122 | Guadalupe River Trail Bridge at Almaden Lake Park San Jose, City of San Jose--Santa Clara The completion of a 210 foot long bridge crossing over Los Alamitos Creek at the outfall of Almaden Lake and 565 lineal feet of associated paved pedestrian/bicycle trail. | Neg | 05/21/2003 |

| 2003042140 | Ha To Valero Remodel (PLN 2002-00306) Fremont, City of Fremont--Alameda Application for a Conditional Use Permit Amendment to remodel an existing gasoline service station and convenient mart, including the removal of 4 bays to add a drive through car wash within the existing building, and to add two new fueling positions (to increase the facility from four to six) and extend the fueling position canopy for a property located on 37635 Blacow Road. | Neg | 05/21/2003 |
| 2003042141 | Knights Ferry School Access Road and Parking Lot Improvements Stanislaus County --Stanislaus Construct a 600-foot wide paved access road from Sonora Road to Knights Ferry School to provide one-way traffic access from the school onto Sonora Road, and to improve an existing parking lot. Currently, access to the Knights Ferry School is via a 14-foot wide paved Dent Street that handles two-way traffic. For school traffic only, Dent Street will be utilized one-way ingress to the school. The new access road will provide one-way egress from the school to Sonora Road. For non-school related traffic, Dent Street will continue to handle two-way traffic in order to maintain this existing access to residential properties. The new access road will reduce school related traffic including buses on Dent Street by approximately 50%. Consequently, traffic circulation and safety will be improved. | Neg | 05/21/2003 |
| 2003044003 | Lower Santa Ana River (Reach 1 and 2) Maintenance Project, Staging Area Modification U.S. Army Corps of Engineers Huntington Beach--Orange This SEA addresses proposed modifications and additions to the staging areas required for continued construction of the Lower Santa Ana River. | SEA | 05/16/2003 |

College District El Cajon--San Diego The proposed project consists of construction of a new physical science and computer information/art laboratory building on campus and renovation of vacated space. Existing temporary buildings on the site should also be relocated on campus. The proposed project would replace existing inadequate facilities on campus. | FIN | |
| 2003031004 | Castaic Lake Water Agency (Santa Clarita Water Division) Sky Blue Tank Site Additions Castaic Lake Water Agency Santa Clarita--Los Angeles The proposed project's objective is to provide water during peak hour water usage periods to the Shapell/Monte Verde project, a 2,500-unit residential development that is under construction north of the site. The proposed project would complete the water supply for this residential development. The proposed project is the construction of two above ground water storage tanks and an associated storm drainage system on a site that is owned by the Castaic Lake Water Agency. This site already contains a 1-million-gallon water tank and a 2-million-gallon water tank operated by the Castaic Lake Water Agency, Santa Clarita Water Division ("CLWA/SCWD"). Access to the site would be provided by the existing access road off of Whites Canyon Road just north of Enderly Street. The site is entered through a locked gate and is not accessible to the public. | FIN | |
| 2002081138 | San Diego State University Student Health Services Facility Campus Master Plan 2003 California State University Trustees San Diego--San Diego The proposed SHS project will involve the construction of a new four-story building that will occupy a footprint area of 18,000 s.f. between Aztec Walk and Hardy Avenue. The proposed project footprint will occupy all of the existing 111-space parking lot J and an adjacent vacated parcel currently occupied by a fraternity house. The proposed SHS will contain approximately 75,000 gross s.f. of facility space over a single-level parking garage with capacity for 90 vehicles including visitor, emergency vehicle, delivery and handicap spaces. A new surface parking lot (Lot O) will also be constructed adjacent to Aztec Walk providing an additional 90 spaces for staff and special permit parking. Lot O will be used as the marshaling yard during construction. The majority of students are expected to access the SHS via Aztec Walk, which will be widened and enhanced with seating and landscaping to provide an outdoor plaza suitable for student events. The project related vehicle traffic, while minimal, is anticipated to be east to west, as the Hardy Avenue frontage is presently a one-way street. The site of the existing 35-year old SHS building, at the intersection of Campanile Drive and Hardy Avenue, will be incorporated into the College Community Redevelopment mixed-use project. | FYI | |

| 2003041159 | La Costa Town Square EIR Carlsbad, City of Carlsbad--San Diego The proposed La Costa Town Center involves the construction and operation of a mixed-use project that includes 350,000 square feet of retail uses, 45,000 square feet of office use, a 10,000 square foot childcare facility, and 64 single-family detached residential units. | NOP | 05/22/2003 |
| 2003041160 | Pitas Point Consolidation Project Carpinteria, City of Carpinteria--Santa Barbara The proposed consolidation of the two gas odorant stations involves shutdown and removal of the Carpinteria Gas Odorant Station, construction of a pipeline to route the gas from the Carpinteria Station to the Pitas Point Gas Odorant Station, and changes and new equipment additions at the Pitas Point Odorant Station to accommodate odorizing of additional gas stream, which is currently odorized at the Carpinteria Odorant Station. The Gas Company has also applied to permit its Natural Gas Vehicle racking facility at the Pitas Point Odorant Station with the City and relocate the facility within the Station. | NOP | 05/22/2003 |
| 2001112057 | The Orchard Subdivision at Oakmont Santa Rosa, City of Santa Rosa--Sonoma To prezone, annex and develop the 31 acre site into 165 single-family residence parcels to be part of the existing Oakmont senior citizen community. 25 of the units would provide affordable housing for seniors. | Neg | 05/22/2003 |
| 2003011150 | Fallon Road Bridge Replacement: County Project 615 San Benito County Hollister--San Benito The San Benito County Public Works Department is proposing to replace the Fallon Road Bridge at Santa Ana Creek. The existing Santa Ana Creek Bridge, built in 1930, consists of a four-span, T-beam conventionally reinforced superstructure on multi-column bents with pile foundations. The two-lane bridge is 28'-4" wide, 60' long, and is at a roughly 85 degree angle to the channel flow of the Santa Ana Creek. The proposed two-span bridge will be built on the same alignment as the existing bridge and will require the contractor to install six piles across the creek channel and associated wetlands. The existing bridge and bents are to be removed one meter below existing grade and disposed of off site per Caltrans standard specifications. This project is part of a larger effort to upgrade many existing bridge structures in accordance with the County of San Benito's seismic replacement projects. | Neg | 05/22/2003 |
| 2003041151 | Reservoir and Pump Station at 50th St. W. & Ave. K-8 Quartz Hill Water District --Los Angeles Construction of a 3600 gpm pump station and a 1.0 MG steel tank reservoir with related controls, piping and appurtenances. | Neg | 05/22/2003 |

| 2002041149 | <p>Placerita Canyon Sewer Backbone Project Santa Clarita, City of Santa Clarita--Los Angeles</p> <p>The proposed project includes the construction of approximately 2.3 linear miles of mainline and lateral sewer line and appurtenances. The proposed project area would cover approximately 1 acre of land, including the sewer line trench and construction staging areas. The sewer line would be constructed from the Master's College and continue northwest along Placeritos Canyon Road and Placeritos Boulevard, generally in the westbound lanes. The sewer would also be constructed along Arden Avenue and Meadview Avenue and would be located on private property. Right of way easements would be required. The main sewer line would connect on an existing Los Angeles County Sanitation District (LACSD) sewer connection, approximately 2,200 feet northeast of the intersection of 15th Street and San Fernando Road.</p> | EIR | 06/09/2003 |
| 2003021145 | <p>La Mirada Merged Redevelopment Project Area La Mirada, City of La Mirada--Los Angeles</p> <p>The City of La Mirada and the La Mirada Redevelopment Agency desire to formulate a new redevelopment project area, which is known as the proposed La Mirada Redevelopment Project Area No. 4, and subsequently merge this new project area with the three existing redevelopment project areas in the City. The three existing project areas include the La Mirada Redevelopment Project Area No. 1, as amended, La Mirada Redevelopment Project Area No. 2, as amended and the La Mirada Redevelopment Project Area No. 3, as amended. The Project is known as the La Mirada Merged Redevelopment Project Area (the "Merged Project Area") and includes 298 acres of the proposed new Project Area No. 4 and 1,106 acres of the three existing project areas. In total, the Merged Project Area is comprised of approximately 1,404 acres. The adoption of the "Merged Project Area," as addressed in the Draft EIR, is intended to eliminate economic and physical blight, fund infrastructure improvements and provide economic incentives to stimulate revitalization of the project area. The proposed actions are all being taken in accordance with the provisions of the California Community Redevelopment Law.</p> | EIR | 06/09/2003 |

| 1999012031 | Second Comprehensive High School Morgan Hill Unified School District Implementation of the Settlement Agreement with the Morgan Hill Unified School District (MHUSD) and the City of Morgan Hill (Morgan Hill), which requires the City of San Jose to accept conveyance from MHUSD of fee title to approximately 75 acres of land for open space purposes; grant an easement to MHUSD to construct and maintain stormwater facilities, a water service connection and other public utility connections over approximately 50 acres of land conveyed to the City; approve an agreement to allow MHUSD to temporarily use portions of the land conveyed to the City to construct the stormwater facilities and as a construction staging area for the Second Comprehensive High School Project; and approve a memorandum of understanding among MHUSD, Morgan Hill and the City consenting to the provision by Morgan Hill for water, sewer and police and fire services to the portion of the Project located in the City of San Jose. | FIN | |
| 2002012080 | Alameda County Juvenile Justice Facility Alameda County Dublin--Alameda The Juvenile Justice Facility includes 420 beds and support functions. Sites include the East County Government Center in Dublin, replacement of the existing facility in San Leandro, conversion of the County's existing adult jail (Glenn Dyer Facility) in downtown Oakland, and development of vacant Port of Oakland property at Pardee and Swan in Oakland. The East County Hall of Justice includes 13 courtrooms and support functions. Sites included the East County Government Center and Site 15A; both in Dublin. | FIN | |
| 2003032103 | Sheldon Partnership Park Elk Grove Community Services District Elk Grove--Sacramento The California Department of Transportation (Caltrans) proposes to acquire right-of-way between State Route 14 (SR-14) and the Avenue P-8 Undercrossing (Structure No. 53-2178), extending eastward along the Avenue P-8 corridor to the intersection of Avenue P-8 and 15th Street East. Additionally, right-of-way would be acquired along Sierra Highway and 8th Street East in conjunction with the anticipated interchange between the future state highway and realigned Sierra Highway, and along SR-14 for completing design requirements for the future interchange with the new highway and the nearby new on-ramp. | FIN | |
| 2003042151 | REA Building Rehabilitation (P03-032) Sacramento, City of Sacramento--Sacramento The entitlements to allow the redevelopment of the existing 25,600 square foot historical REA Building within the Railyards Special Planning District. The project proposes to rezone the site from the General Industrial Toxic Special Planning District (M-2-T-SPD) to the Central Business District Special Planning District (C-3-SPD), in order to rehabilitate the existing REA Building and adaptively reuse it for retail and office uses (approximately 11,000 +/- square feet of each use). The building will require extensive repair and renovation to restore it to a functioning facility. The structure is listed as a contributing building on the National Register of Historic Places and is listed on both the California Register of Historical Resources and the City of Sacramento's Official Register of Historic Structures and Preservation Areas. The structure is viewed as an important part of the future development of the Union Pacific (UP) Railyards. The T suffix that is associated with the existing zoning will be removed as a condition of approval. | NOP | 05/23/2003 |

| 2003041162 | Interim Solids Handling at the Robert B. Diemer Filtration Plant North Lagoons Metropolitan Water District of Southern California Yorba Linda--Orange The proposed project involves the installation of interim solids handling facilities (belt presses and related equipment) at the Robert B. Diemer Filtration Plant (Diemer Plant) north lagoons. The residual solids handling capability at the Diemer Plant needs to be expanded to provide reliable treatment of the increased solids generated from the increased reliance of water from the State Water Project. Two temporary belt presses and related equipment would be located at the North Lagoons in Telegraph Canyon on the north side of the Diemer Plant. The temporary facilities would be in operation three to four years, until permanent facilities are constructed. | Neg | 05/23/2003 |
| 2003041163 | Merced County Courts Facility Merced County Merced--Merced The project sponsor proposes to construct a new 80,000 square-foot Superior Court facility that would be up to four stories in the City of Merced. The Merced County Superior Court currently occupies four permanent buildings and three relocatable buildings. Over the past decade, the incremental growth of court-related functions has resulted in a severe space shortage in the existing facilities. The purpose of the proposed project is to construct an approximately 80,000 square-foot building that would house several court-related functions to supplement the existing court facilities to alleviate the existing space shortage and allow for future growth. | Neg | 05/23/2003 |
| 2003041170 | Guava Street Bridge Murrieta, City of Murrieta--Riverside The establishment of a replacement bridge for the Washington crossing at the new location on Guava Street. The bridge will be a free span structure that is 60-feet in width and 425-feet in length. The replacement bridge is part of the Murrieta Creek Flood Control Project. | Neg | 05/27/2003 |
| 2003042147 | Emergency Pump Station Reclamation District No. 684 Stockton--San Joaquin Installation of an agricultural drain pump station, including discharge/outfall pipes, into Turner Cut. The proposed project will supplement existing pumping facilities. Excavation above base flood elevation to install 2-30 inch steel pipes through levee Watershed work to include laying outfall pipeline on existing riprap. No fill material or additional riprap is to be placed in water. | Neg | 05/23/2003 |

| 2003042152 | Carson Creek Stream Gaging Station El Dorado Irrigation District --El Dorado The proposed project would involve the construction and operation of two stream gaging stations along Carson Creek, adjacent to the EHWWTP. The gaging station at Site 1 would consist of a sonic sensor mounted on the existing Latrobe Road bridge with conduit running along the length of the bridge to the stream bank. The gaging station at Site 2 would involve site preparation, including the removal of ground vegetation and grading a small portion of the stream bottom. The total area of ground disturbance would be approximately 300 sq.ft. for site preparation. Excavation would not exceed 1 foot in depth. The Site 2 gaging station would consist of a flume-like structure across the stream channel. Both sites would include the provisions for a pump with conduit for future water quality sampling. Streamside from the flume would be an enclosure for the measuring instruments. Access to Site 1 is provided by a driveway used for the EHWWTP and gravel parking areas near the creek. Site 2 would be accessed from the Latrobe Road right-of-way through the open grassland west of Carson Creek. | Neg | 05/23/2003 |
| 1987011910 | McCanna Ranch Water Company, System No. 3310082 Perris, City of Perris--Riverside Construct and operate a public water system serving a limited service area consisting of 1,274 homes and one elementary school at build-out. | NOD | |

| 2002122065 | William F. James Boys Ranch and Harold Holden Ranch Lighting Upgrade & Building Improvements Project Santa Clara County Morgan Hill--Santa Clara The proposed project consists of the construction of several buildings and lighting improvements at the William F. James Boys Ranch and the Harold Holden Ranch. Building improvements include construction of a 2,144-square foot "program building" at the Harold Holden Ranch, a 610-square foot cafeteria addition, and a 704-square foot new auto shop/training facility at the William F. James Boys Ranch. The proposed project building and cafeteria addition would be located within the existing core of the campus, adjacent to the administration building. The proposed project includes upgrading the lighting to energy efficient high-pressure sodium (HPS) lamps at the project site, with the exception of using metal halide (MH) lamps in the athletic areas for better color rendition. The primary goal of the lighting upgrade would be to provide adequate illumination for the various tasks needed at the facilities, including security. Additional priorities include providing energy efficient lighting with a long lamp life and to provide a consistent lighting source at the project site. | NOD | |

| 2002091069 | La Habra Heights General Plan Update La Habra Heights, City of La Habra Heights--Los Angeles Update to the City's General Plan. There were two major changes to this Draft EIR: 1.) The General Plan Policies that are referenced in the Draft EIR have been modified. These modifications reflect the changes made to these policies by the City's Planning Commission during the public hearing process. The Planning Commission has recommended tht the City Council of the City approve these policies. 2.) The Draft EIR now indicates that the theoretical build-out of the City may result in a significant air quality impact. | EIR | 06/09/2003 |
| 2000041040 | Oak Tree Protection Program Santa Barbara County --Santa Barbara The purpose of the proposed Oak Protection Program is to require permits and/or environmental review where necessary for specific levels of native oak tree removal, and to institute a County goal of retention, and where feasible, increase of oak trees over time. The project consists of amendments to the County's Comprehensive Plan, and the addition of a new ordinance to the County Code. The project does not include amendments to the Local Coastal Plan or to the Coastal Zoning Ordinance. The program would apply to all unincorporated lands subject to Santa Barbara County's Zoning Ordinance (including the Community Plan areas) that are outside of the coastal zone and urban areas, and have the following land use designations: A-I, A-II, AC, MA, Other Open Lands, and their associated zone districts which include AG, AG-I, AG-II, A-I-X, AL, U, WA, MT and RES. These areas total approximately 770,000 acres. The project would not apply in the program, would not apply in Environmentally Sensitive Habitat (ESH)-Goleta and the proposed ESH-Toro Canyon overlay areas (located in the Goleta and proposed Toro Canyon Community Plan areas), where oak tree protection standards already exist. | FIN | |

| 2003042155 | Mammoth Lakes General Plan Update 2003 Mammoth Lakes, City of Mammoth Lakes--Mono The proposed project is a comprehensive update of the Town of Mammoth Lakes's General Plan. The General Plan is the primary policy document for the Town and is the basis for all decisions regarding the physical development within the Town. It expresses the community's vision for its future and is a guide for both long-term and day-to-day decisions and actions of the Town. The Town's current General Plan was adopted in 1987. Since that time, independent amendments have been made to several of the elements that comprise the Plan; however, the General Plan has not been comprehensively reviewed since it was adopted in 1987. In addition to updating the mandatory elements of a General Plan, Mammoth Lakes will also be updating its Parks and Recreation Element. | NOP | 05/27/2003 |
| 2003041164 | PLN020444 Ryter Trust Monterey County Planning & Building Inspection --Monterey Combined Development Permit, including a Coastal Administrative Permit and Design Approval for construction of a two-story, 6,000 square foot single family residence with an attached three-car garage, 1,800 square feet of patio area and a septic system and grading (1,050 cubic yards cut/300 cubic yards fill). A Coastal Development Permit is also required for development within 50-feet of a coastal bluff edge. The property is located at 30990 Aurora Del Mar, Carmel (APN's 243-241-014-000), within the Otter Cove Exemption area between Highway 1 and the coast line, Big Sur area, coastal zone. | Neg | 05/27/2003 |
| 2003041165 | Well No. 32 Improvement Project Mission Springs Water District Desert Hot Springs--Riverside The project proposal calls for construction of a new 2000 GPM groundwater production well, two 2.0 million gallon (mg) water storage reservoirs, a booster pump station, and distribution pipelines to deliver the new water supply to customers in the 900 and 1,070-foot service zones. The well and storage reservoirs would be constructed on a District-owned parcel measuring 670' X 320' (about 5 acres) and located west of Little Morongo Road between Dillon Road and Two Bunch Palms Trail. MSWD proposes to construct only one of the two storage tanks at this time. The second tank would be constructed at a future date when needed to meet increased water demands. | Neg | 05/27/2003 |
| 2003041167 | Fenton San Marcos Clearing and Brushing Project San Marcos, City of San Marcos--San Diego The clearing and brushing of designated areas of approximately 60 acres in order to provide fuel modification for the site which would result in a reduction of wildland fire hazards to nearby structures and residents. The project would clear the existing vegetation which consists mostly of non-native grasslands and coastal sage scrub, while brushing around all eucalyptus trees. No wetlands are within the project area. Disturbance of the soil surface would be minimal. | Neg | 05/27/2003 |

| 2002052051 | 1616 Rollins Road Burlingame, City of Burlingame--San Mateo The applicant/operator will grade and pave the parking lot in the southern portion of the site, leaving no less than an eight-foot wide buffer zone from the edge of the parking lot to the upper edge of the channel's bank. The proposed outfall will be surrounded by approximately 340 square feet of grouted concrete. The proposed 21-inch diameter storm drain pipe will have flows directed through a 24-inch PVC pipe that will tie into the existing storm drain pipe system, located downstream from the ditch. | NOD | |
| 2002112110 | Proposed Negative Declaration for a Student Recreation Center at Humboldt State University California State University Trustees Arcata--Humboldt The Student Recreation Center is Phase I of the program to renovate the Forbes Physical Education Complex and Field House to provide students with enhanced indoor recreational and physical fitness opportunities. Phase I is a student fee funded component that includes the renovation of the 35,000 square foot Field House, the addition to the Field House of approximately 9,800 square feet fitness center, and related site improvements. Approximately 6,000 square feet of enclosed building footprint will be added to accommodate the improvements. The project site is already developed with the Field House, walkways and a small landscaped area. | NOD | |
| 2003011076 | Tank Farm Silt Removal San Luis Obispo, City of San Luis Obispo--San Luis Obispo A seasonal unnamed tributary to East Fork San Luis Obispo Creek flows through a bottomless concrete box culvert at the intersection of Tank Farm Road and Hollyhock Road in the City of San Luis Obispo. Sediment has accumulated in the culvert and has reduced the flow capacity of water in the creek. The proposed project would remove approximately 12 cubic yards of sediment from the box culvert to restore the original capacity of the culvert. Sediment would be removed to a depth equal to the channel bottom immediately upstream from the culvert, leaving a low-flow channel to facilitate flow through the culvert. A minimal amount of riparian vegetation would be trimmed to allow access to the project site, and invasive vegetation would be removed from the site. The project is necessary to restore the original capacity of the culvert in the event that high flows occur during upcoming winter storms. | NOD | |

| | to completely replace all existing services, demolish the existing structures, including the store/office and shop building, to be rebuilt and slightly modified, improve drainage facilities, maintain and redevelop an existing +/- 70 slip marina and develop a public boat ramp and public recreational facilities. The project also includes the vacation of the east end of Halibut Drive (a portion of APN 305-092-05) to incorporate the aforementioned public recreation area. One caretaker's unit currently exists; an additional unit is proposed for the use of the owner. Thirteen of the existing thirty-five mobile home park spaces will be reconfigured, resulting in thirty-one spaces. This use will remain non-conforming. The total number of RV spaces will decrease from 46 to 45 and four of the spaces will be reconfigured. The redeveloped facility will contain 31 mobilehome sites, 45 RV sites, 1 caretaker's unit, 1 studio apartment and 1 owner's office/unit. A Coastal Development Permit for the project will be required from the California Coastal Commission. | | |
| 2003032059 | Jefferson Commons Sacramento, City of Sacramento--Sacramento The project proposes to develop 15.41 acres for garden style apartments that would include 288 residential units (792 beds) for student housing. | NOD | |

| 2003048453 | Fabrication and Installation of a Steel Pipe Section in the Box Springs Feeder Pipeline Metropolitan Water District of Southern California Riverside--Riverside The Metropolitan Water District of Southern California (Metropolitan) proposes to replace an existing 20-linear foot section of damaged concrete piping in the Box Springs Feeder pipeline with a welded steel pipe. Cracks were originally identified in this section of the pipeline in 1989 and an internal steel band was installed to stop the leaking. A pipeline inspection conducted in January 2003 revealed that the internal band at this location had failed and was no longer functioning as designed. In addition, new cracks were discovered extending beyond the temporary internal band. Metropolitan proposes to fabricate and install the new pipe section during an April 2003 shutdown. During the shutdown, Metropolitan proposes to also inspect several other locations where cracks in this area of the Box Springs Feeder pipeline were previously discovered and temporary bands were installed. | NOE | |
| 2003048483 | Class 2 Permit Modification to Improve Existing Waste Descriptions, Address Air Emission Standards, and Make Numerous Minor Changes to the Resource Conservation Toxic Substances Control, Department of --Kern First, the list of items stored at the facility has been expanded to better describe these wastes. In an ongoing effort to improve their standard of quality, Edwards AFB has elaborated on the existing list to make it more item specific. The previous list utilized species generalities to identify items processed at the facility. Second, the Department of Toxic Substances Control required that language be added to the RCRA Part B Application (Part B) to address current air emission standards. Finally, numerous minor changes have been made to the Part B to reflect current practices and conditions at the CSF. | NOE | |

The designation would allow the site to be developed with 124 to 191 residential units. The DEIR examines the entire 19.1 acre parcel and the San Francisco Public Utility Commission Hetch Hetchy parcel that separates the project site from Paseo Padre Parkway. | FIN | |
| 2002062042 | Western Placer Waste Management Authority Capacity Enhancement Project 2002-2003 Western Placer Waste Management Authority Lincoln, Roseville--Placer The proposed project includes increasing the permitted tonnages at the Western Regional Sanitary Landfill and Materials Recovery Facility (MRF), increasing the permitted number of vehicles at the MRF, expanding the MRF by approximately 60,600 square feet, extending the MRF's processing hours, developing an additional recyclable material and equipment storage area, expanding the current compost pad, developing a new compost curing area, relocating and expanding the green and wood waste processing operations, developing a new entrance road and closing the existing entrance road, expanding the existing self-haul unloading area, expanding the existing household hazardous waste facility, extending the household hazardous waste operating hours, developing a new drop-off/ buy-back facility and a new household hazardous waste drop-off area, constructing a parking area for trailers containing MRF residue, providing new on-site roads, allowing food waste and waste water treatment plant sludges to be composted in addition to green waste, including additives in the composting feedstock, and receiving source-separated materials from outside of the Authority's service area. | FIN | |
| 2002072102 | 2001 Draft Program Environmental Impact Report Mendocino County --Mendocino The Mendocino Council of Governments (MCOG) is revising its Regional Transportation Plan (RTP). The RTP provides an assessment of the current modes of transportation in the county and identifies potential new travel options. It predicts future needs for travel and the movement of goods. The RTP includes a list of specific actions and improvements to facilitate travel and accessibility. The list of specific actions include major highway and local road construction projects, highway and street maintenance projects, bridge construction and repair, improvements to and expansion of airports, rehabilitation of rail lines, construction of bike lanes and bikeways, construction of mass transit transfer centers, improvements to harbors, and a variety of other transportation related projects. | FIN | |
| 2003042162 | Oakdale High School Expansion Project Oakdale Joint Union High School District Oakdale--Stanislaus The Oakdale Joint Unified High School expansion project includes purchasing neighboring offsite properties and building athletic fields and facilities to supplement the existing high school facilities. The proposed area of expansion consists of 33 parcels of land encompassing approximately 13.7 acres of land. | NOP | 05/27/2003 |

| 2003041178 | EA RP01-03 Kern County Planning Department --Kern A zone change from E(5) (Estate) to A (Exclusive Agriculture) on a 19.49 acre parcel in order to proceed with a Conditional Use Permit to allow an outdoor paintball park. | Neg | 05/27/2003 |
| 2003041179 | Fire Station #55 - Northwood Orange County Fire Authority Irvine--Orange The proposed project consists of the development and operation of Fire Station #55-Northwood. The station will provide services to the existing neighborhoods of Northwood Point and lower Peters Canyon, along with the planned future development in the project vicinity. The proposed station will occupy an approximately one acre site and will be constructed in two phases. The first phase will consist of grading activities, site preparation work and the placement of temporary structures for the operation of a fire station. The second phase will include the construction of an approximately 8,500 square-foot permanent facility. | Neg | 05/27/2003 |
| 2003041188 | The Crest Planned Residential Development San Diego County Department of Planning and Land Use Fallbrook--San Diego The project is a proposal for a major subdivision of 69 gross acres (64.2 net acres) into 109 lots for single-family residential development that will occur in four phases. The project is a planned development and is proposing a .25-acre minimum lot size with lots ranging from .25-acre minimum lot size with lots ranging from .25 to .61 net acres. The overall density of the project is 1.57 du/acre with the smallest lot being 10,890 sq.ft. The project will consist of 101 residential lots comprising 34.7 acres, 8 lots for open space, recreation and other uses comprising 18.8 acres, and 6 private roads comprising 10.7 acres. The project proposes a balanced cut and fill operation of 250,000 cubic yard. The maximum cut slope will be 1.5:1 and the maximum fill slope will be 2:1. The project will be accessed from Stage Coach Lane and Gum Tree Lane. The project will receive water and sewer service from the Fallbrook Public Utilities District and fire service from the North County Fire Protection District. | Neg | 05/27/2003 |

| 2003042163 | Val Verde/Dick Cook Pipeline Project Placer County Water Agency Loomis--Placer The Val Verde/Dick Cook Pipeline Project is proposed by PCWA to improve its water delivery operations in the Lower Zone 1 service area. Improvements are needed to provide adequate pressures and flows to the service area. The proposed pipeline would consist of approximately 5,000 linear feet of 24-inch diameter pipeline and 8,700 linear feet of 18-inch diameter pipeline. The corridor proposed for this new water transmission line is primarily located under existing roadways (Val Verde and Dick Cook Roads). | Neg | 05/27/2003 |
| 2003042164 | UC Davis Medical Center Lot 14 Expansion Project University of California, Regents of the Sacramento--Sacramento The UC Davis Medical Center proposes to construct an extension of existing Lot 14 on a portion of an approximately 11.6-acre site owned by the University in Sacramento, California. The project site is within UCDCM on the south side of 2nd Avenue between Stockton Boulevard and south of 45th Street. The Lot 14 expansion from approximately 201 to 436 spaces would provide replacement parking for permanent spaces removed elsewhere at the UCDCM as a result of UCDCM construction projects. The contractor lot is intended to consolidate contractor parking and would have approximately 534 parking spaces for contractors working on UCDCM construction projects. An approximately 60,000 square foot contractors' equipment and materials laydown area would also be included south of the contractor parking area. | Neg | 05/27/2003 |
| 1997041080 | Santa Clara Valley Water District - Semitropic Water Banking and Exchange Project Semitropic Improvement District SCVWD proposes, under a long term agreement with Semitropic to the year 2035, to store up to 350,000 acre-feet in Semitropic's groundwater banking program. Farmers located within the Semitropic service area could use this surface water in lieu of pumping groundwater for irrigation. Alternatively, SCVWD's SWP water could be banked through direct recharge of the underlying groundwater basin. Upon request, Semitropic would return SCVWD's stored water either by pumping the groundwater from the underlying basin through a pumpback facility, and into the California Aqueduct and the SWP supply pool, or by allowing SCVWD to receive an equivalent portion of Semitropic's SWP Table water in exchange. | NOD | |

| | Estuary Recreation Cluster. The Estuary Recreation Cluster Development will include: a paved entry road, portion of the San Francisco Bay Trail, parking for up to 165 vehicles, irrigated turf, picnic areas, wildlife observation/fishing pier, Park staff service yard, utility line extensions, appurtenant facilities necessary to serve these improvements, and rip-rap shoreline protection. | | |
| 1999121084 | Jonata Park Road Bridge Replacements Santa Barbara County Buellton--Santa Barbara The applicant proposes to replace two existing bridges, complete with wingwalls with one culvert extension. The project is located in Buellton in Santa Barbara County. | NOD | |
| 2001101048 | CU-033-012/VC-004-989 Water Treatment Plant and Street Vacation Riverside, Planning Department, City of Riverside--Riverside The 16 MGD Project will provide treatment for dibromochloropropane (DBCP) removal from 4 existing wells. The improvements include the construction of 15 granular activated carbon (GAC) vessels, a disinfection facility and associated piping. | NOD | |
| 2001111068 | East Valley New Area Middle School No. 1 Los Angeles Unified School District --Los Angeles The purpose of the proposed East Valley Area New Middle School # 1 is to relieve overcrowding at the existing Madison and Sun Valley Middle Schools in Local District C and B in the City of Los Angeles. The proposed middle school site is generally bounded by Kittridge Street to the north, Hamlin Street to the south, Laurel Canyon Boulevard to the east, and Saint Clair Avenue to the west. The residential area in the northwest portion of this block is not included in the proposed project site. Subsequent to clearance of the 9.58-acre site, LAUSD proposes to provide 1,620 two-semester middle school seats, accommodating 2,268 students in the 6th through 8th grades year-round. The middle school facilities are expected to include approximately 105,000 sq. ft. of building space, including 56 classrooms, 9 special day classrooms, 2 set-aside classrooms, administrative offices, multipurpose room, kitchen, indoor/outdoor eating area, student store, performing arts classroom, library/multimedia center, gymnasium/associated facilities, and parking for approximately 144 vehicles. | NOD | |

| 2003011151 | Kennedy/Knox Twin Area Elementary School MND San Diego Unified School District San Diego--San Diego The proposed project involves the construction and operation of a new Kennedy/Knox Area Elementary School on a portion of the existing Kennedy Elementary School site. This will require the demolition of the existing 1,100-student Kennedy Elementary School (grades K-6); reconstruction of a 600-student Kennedy Elementary School (grades K-5); construction of a new 600-student Kennedy/Knox Area Elementary School (grades K-5); and the operation of both schools. No new property will be acquired for the project. | NOD | |
| 2003012030 | Pacific Lumber Company Scotia Zone Reclassification Humboldt County Planning Department --Humboldt Pacific Lumber Company is owner of 465 acres of property that constitutes the community of Scotia. The project is a request for a zone reclassification of portions of Scotia unclassified "U" zoned lands. The request involves rezoning approximately 257 acres within the town of Scotia as follows: rezone 245 acres of existing industrial use lands currently designated for Industrial General (IG) in the General Plan to the Heavy Industrial, Qualified (MH/Q) zone; and rezone 12 acres of existing commercial lands currently designated Commercial General (CG) by the General Plan to the Community Commercial, Qualified (C-2/Q) zone. The Qualifying combining zone applied to the MH portion would limit new industrial uses consistent with the General Plan designation of Industrial General (IG) and specify that new industrial uses be required to meet industrial performance standards similar to those met by previous industrial uses, otherwise a conditional use permit would be required. Additionally, the Qualified Combining Zone includes development restrictions for both the proposed MH/Q and C-2/Q zones which would serve to protect historical resources. | NOD | |
| 2003022064 | Fitch and Gauntlett Well Water Treatment Project Healdsburg, City of Healdsburg--Sonoma The proposed project is to construct a new water treatment facility. The purpose of the project is to treat water from the City of Healdsburg's two Russian River well fields, eliminating an existing seasonal restriction on the use of these wells, and to meet new State standards. After considering other alternatives, the City proposes to construct a single micro-filtration treatment facility at a site adjacent to the City's existing Panorama Reservoir, located at the end of Sunnyvale Drive. An existing 16-inch raw water pipeline connecting the Fitch Well Field and the Tyman Park Reservoirs would be extended approximately 6,500 feet to bring raw water from the Fitch Well Field to the Gauntlett Reservoir. A new booster pump located within the Tayman Park Golf Course, near the #8 fairway, would pump water to the higher Gauntlett Reservoir, where it would be combined with water from the Gauntlett Well Field. From there it would flow by gravity throughout the new treatment facility to the Panorama Reservoir. The City would construct the project in two phases. | NOD | |
| 2003032064 | Oroville Bangor Highway Improvement Project, Project Number 10661-00-1 Butte County Oroville--Butte Butte County Department of Public Works proposes to widen and improve 2.08 miles of the Oroville Bangor Highway from just north of Whitehall Creek to approximately 600 feet south of Swedes Flat Road to meet current safety | NOD | |

| 2003048484 | Removal Action Workplan, Installation Restoration Site 1, Heroic War Dead United States Army Reserve Center, Oakland, California Toxic Substances Control, Department of, Northern California Permitting Branch Oakland--Alameda Upon approval of the proposed removal action, the Army Reserve will remove the concrete pad, oil water separator, and surrounding contaminated soil, totaling approximately 1,360 cubic yards. Confirmation soil samples will be collected and compared to the United States Environmental Protection Agency, Region 9's residential preliminary remediation goals. The Army Reserve will prepare a risk assessment to establish the final cleanup goals after completion of soil removal and groundwater investigation. The excavation is estimated to be 70 feet by 75 feet by 7 feet deep. The impacted concrete, debris, and soil will be transported to an appropriate hazardous waste treatment and disposal facility, depending on waste classification. The excavation will be backfilled with clean soil. The removal action is projected to cost approximately \$100,000. | NOE | |
| 2003048485 | Child Development Center and Infant Toddler Center California State University, Dominguez Hills Carson--Los Angeles This project will build a one-story, 6,390 ASF/7,220 GSF facility; and will include 5 classrooms, kitchens, restrooms, staff offices, staff/teacher multi-purpose rooms, storage, janitor closets, and outdoor play yards. The purpose is to provide a childcare facility where parents (mostly students) can leave their children while they attend classes; and an infant/toddler center for teacher-training in early childhood education of physically/developmentally challenged infants and toddlers. Beneficiaries are the children who attend the centers, and the parents (mainly students) who use the centers. This project is non-state funded. | NOE | |
| 2003048486 | Transfer of Coverage to El Dorado County APN 22-351-06 Tahoe Conservancy South Lake Tahoe--El Dorado Project consists of the sale and transfer of 1,249 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area. | NOE | |
| 2003048487 | Swain Mountain Snowmobile Park Repaving Parks and Recreation, Department of --Modoc Swain Mountain is a snowmobile staging area in the winter. The proposed project will remove broken asphalt from the parking lot, which will then be repaved and expanded to accommodate recreational vehicles (RV's) and vehicles pulling 4-place trailers. Parking stalls will be lengthened and a wider turning radius has been designated. Parking will be provided for 20 vehicles, the current capacity at this site. | NOE | |
| 2003048488 | Tiger Creek Regulator Dam Water Resources, Department of, Division of Dams --Amador Replacing existing 10-inch in-stream flow release pipe with larger 16-inch pipe and valve, tapped off existing 30-inch low level outlet pipe on dam. | NOE | |

The High School includes various education buildings, recreational facilities, parking areas, and a sports stadium. The sewer trunk realignment involves the movement of a portion of a planned sewer line to avoid sensitive habitat areas, and involves no change in capacity or service area.</p> | EIR | 06/13/2003 |
| 2003011110 | <p>Los Angeles Valley College Facilities Master Plan Los Angeles Community College District --Los Angeles</p> <p>Los Angeles Valley College has developed a Facilities Master Plan that proposes construction of new facilities, renovation of and additions to existing facilities, demolition of several existing buildings, and the development of new surface parking, landscaping, and open space. The proposed Facilities Master Plan would include new construction, renovation and modernization of existing facilities, and demolition of a number of existing buildings on the campus. With the proposed improvements, there would be a net increase in building floor space on the campus of approximately 256,000 gross square feet (gsf). Currently, campus buildings contain approximately 600,000 gsf of space. The construction of projects proposed under the Master Plan is expected to commence in 2003 and continue through approximately the year 2008. It is anticipated that the new and renovated facilities would accommodate and meet the educational needs of a future student population of approximately 23,000 students. In the Fall 2001 semester, there were 18,487 students enrolled at Valley College. Approximately 76 percent of the students were part-time students and 24 percent were full-time students. Funding for a portion of the projects identified in the Facilities Master Plan would be provided through the \$1,245 billion Proposition A bond measure passed in the Spring of 2001 by the voters of Los Angeles County. The total bond distribution to Valley College under Proposition A is approximately \$165 million.</p> | EIR | 06/12/2003 |

| 2003041182 | Sprint PCS-Project No. 02-1071-CUP/CDP Carpinteria, City of Carpinteria--Santa Barbara This project would involve placement of wireless facilities on a parcel developed with two existing buildings utilized by the Salvation Army. The project consists of the installation of a six (6) panel antennae on an existing building. The antennae would be mounted behind sections of the existing mansard, which would be replaced with manufactured plastic materials designed to replicate the existing materials of the building. | Neg | 05/28/2003 |
| 2003041183 | Avila Flood Gate Replacement Project ED 02-005 (P12B501) San Luis Obispo County --San Luis Obispo The County of San Luis Obispo is proposing to remove and replace the existing Avila Flood Gate. The Avila Flood Gate is installed on the downstream end of a culvert that drains a large portion of the community fo Avila Beach. The existing gate is a steel "flap gate" that prevents high creek flows and/or high tides from back flowing through the culvert and flooding a portion of the community. The gate is frequently blocked open by silt, sand and debris because it opens into the tidal lagoon of San Luis Obispo Creek. The new type valve can operate under these conditions without blocking open. Work will consist of the demolition of the existing flap gate and head wall, construction of a new head wall and installation of a Red Valve Tideflex Check Valve. A semicircular sandbag diversion, approximately 8 feet in radius, will be laid by hand to protect water quality in the lagoon. Work will necessarily take place during low creek flows and low tides. The total area of disturbance is not expected to exceed 150 square feet, and a total of 2.38 cubic yards of excavation. | Neg | 05/28/2003 |
| 2003041184 | General Services-Elfin Forest Natural Area Boardwalk Extensions San Luis Obispo County --San Luis Obispo County General Services-Elfin Forest Natural Area, including: three boardwalk extension and restoration activities within the Elfin Forest Natural Area, including: three boardwalk extensions; installation of straw waddles; re-vegetation of disturbed areas outside of boardwalk paths; wooden post fencing; and trail sign installation. The project is within the Open Space land use category, and is located at the northern ends of 11th Street through 17th Street, within the community of Los Osos. ED02-303 (C010051G). | Neg | 05/28/2003 |

| | standards. The project will provide paved access trails to two restrooms, one in the campground and one in the day use area. Approximately 500 feet of trail at the south end will be located on a side slope, requiring cutting of the slope to establish a 6-8 foot wide bed. Portions of this trail gradient may be as much as 5%. Excavate volunteer trail bed, throughout the trail length, to a depth of approximately 4"-8" to allow the placement of an aggregate base and asphalt concrete. | | |
| 2003048506 | <p>ADA Improvements and Comfort Station Replacement - Main Picnic Area Parks and Recreation, Department of --Santa Cruz</p> <p>Replace a comfort station at and provide access to the Main Picnic Area of Big basin Redwoods State Park to comply with the Americans with Disabilities Act (ADA) standards, California Title 24 of the California Building Code. This project will:</p> <ul style="list-style-type: none"> * Demolish an existing comfort station and construct a new, ADA compliant comfort station in the same location using existing utilities including ground disturbance to a depth of approximately 24" for demolition and trenching to approximately 48" for utilities and concrete paving for parking expansion and pedestrian walkways. * Improve picnic areas including moderate grading to level sites, installing compacted "track fines" (hard, rubber soil stabilizers) and accessible furnishings. * De-compact approximately 6,200 square feet of existing and potentially disturbed soil and place duff, forest litter, forest limbs and plant 200 native seedlings within newly de-compacted areas to mitigate newly added, impervious surfacing. * Construction will occur outside the marbled murrelet breeding season of March 24-September 15. * DPR-approved Best Management Practices will be used to minimize construction and long term impacts. <p>Project protects public health and safety, supports continued use and maintenance, and provides ADA Accessibility.</p> | NOE | |
| 2003048507 | <p>Skull Creek Forest Fire Station - Drill Water Well Forestry and Fire Protection, Department of --Calaveras</p> <p>Drill 8" nominal diameter water well to an estimated depth of 600 feet and installation of a pump, placement of a water storage tank, and extension of existing water and electrical systems to serve the new features. The project is located at an existing remote fore station in Calaveras County, near the town of Arnold.</p> | NOE | |
| 2003048508 | <p>Emergency Dead Tree Removal Forestry and Fire Protection, Department of --Riverside, San Bernardino, San Diego</p> <p>This project consists of the emergency removal of dead and diseased trees and other vegetation on non-federal lands in order to protect natural resources, lives, property and community infrastructure from wildfire and falling hazards associated with dead trees. This also includes tree removal to protect key evacuation routes, communication sites and a general reduction in the buildup of forest fuels. Various resources, including crews from county, state and federal levels of government as well as private crews will be used to remove and dispose of the dead trees. Various funding sources will be used to finance these operations. The resource protection requirements of the Forest Practice Act will still apply.</p> | NOE | |

| 2001101069 | Chapman University Specific Plan Amendment No. 5 EIR Orange, City of Orange--Orange The proposed Amendment No. 5 to the Specific Plan would add parcels totaling approximately 17.12 acres to the project area, which would accommodate future University expansion efforts, including the School of Film and Television, the Dance Center, and other uses. It is estimated that the proposed project would result in a maximum capacity of 5,000 seats with a maximum enrollment of 8,715 students. A 15-year build-out for the project is anticipated. The School of Film and Television is planned to undergo a site plan review concurrent with the processing of the Specific Plan Amendment (SPA). As part of the SPA, the segment of Cypress Street between Palm Avenue and Maple Avenue may be abandoned to facilitate a more integrated use of the site. | EIR | 06/13/2003 |
| 2002071028 | Tentative Tract Map 53647 La Canada Flintridge, City of La Canada-Flintridge--Los Angeles The City of La Canada Flintridge has prepared a Draft Environmental Impact Report (EIR) on the proposed 18-lot subdivision entitled Tentative Tract Map 53647 and Variance 02-10 in the City of La Canada Flintridge. The current zoning of the site is R-1-40,000 (Single-Family Residential-40,000-Square Foot Minimum Lot Area). The City's Hillside Ordinance provides tailored development standards to promote orderly development of individual lots within the subdivision. The Applicant has under his control 47.11 acres of undisturbed hillside area and proposes to provide infrastructure and buildable pads for 17 single-family residential lots with an additional lot remaining as undeveloped and vacant (open space/conservation). The proposed 18 lots range in size from 0.92 acre up to 18.36 acres. | EIR | 06/13/2003 |

| | and coordinated. The new EEC addresses these issues in a creative, and user-friendly manner. The EEC is proposed as a three-level structure designed to blend in with the natural topography of the site. The total square footage of the building would be 29,438 gross square feet. Upon completion, the EEC will serve the existing student population of the College by providing student services and faculty office space. The facility would provide for the following types of space: -A unified transfer/honors center, -A multidisciplinary student success center, -A college-wide assessment center, -Technology rich computer labs, -A distance education program and service, -The gateways to teaching program, -The office of professional development, -Faculty offices, and -Multi-use tutorial facility. | | |
| 2003011134 | Interim Water Service Contract Renewal (3/1/03-2/29/04) With Option to Extend Through 2/28/05 Lower Tule River Irrigation District Fresno, Visalia, Porterville, Bakersfield--Fresno, Kern, Tulare Interim Renewal (3/1/03-2/29/04) of Water Supply Contracts between the Cross Valley Canal Contractors and the Federal Government for CVP Water Supplies, with an option to extend through 2/28/05, and acceptance and execution of interim contracts between the CVP Contractors and the State of California for wheeling of CVP water through State Water Project facilities. | NOD | |
| 2003031016 | San Joaquin Marsh Mitigation Site Improvement Project Irvine Ranch Water District Irvine--Orange This project provides for construction of maintenance and modification improvements within the 43.5 acre San Joaquin Marsh Mitigation Site, which is bounded by Campus Drive to the west, Carlson Avenue to north and San Diego Creek and the Michelson Treatment Plant to the southeast. The mitigation site was constructed under terms of US Army Corps of Engineers, Section 404 Permit No. 96-00088 MFS and CDFG Section 1603 Agreement No. 5-243-96. The site is located within the City of Irvine, in Orange County. | NOD | |
| 2003031066 | Irvine Lake Pipeline (ILP) Disinfection Facility Irvine Ranch Water District --Orange The Irvine Lake Pipeline (ILP) conveys untreated water from the Irvine Lake to the various customers for irrigation use, and it also supplies the Serrano Water District (SWD) with raw water for treatment into potable water. To control slime buildup inside the pipeline, IRWD has in the past injected chlorine into the ILP at head end of the pipeline at Irvine Lake. However, while the practice was effective in controlling slime buildup, injection of free chlorine into untreated water from the lake also produced trihalomethane (THM) as a byproduct. IRWD was requested by SWD to relocate the disinfection injection point downstream of the SWD intake line to avoid forming THM in its potable water system. The disinfection facility would be relocated to an existing filter building adjacent to the ILP on the southerly side of Irvine Park. IRWD will use sodium hypochlorite (common bleach) as the disinfectant for its safety characteristics. The major components of the disinfection facility are the sodium hypochlorite storage and pumping equipment and the structures to house the equipment. | NOD | |
